Detecting Men Philippa Gates, 2012-02-01 Detecting Men examines the history of the Hollywood detective genre and the ways that detective films have negotiated changing social attitudes toward masculinity heroism law enforcement and justice Genre film can be a site for the expression and resolution of problematic social issues but while there have been many studies of such other male genres as war films gangster films and Westerns relatively little attention has been paid to detective films beyond film noir In this volume Philippa Gates examines classical films of the thirties and forties as well as recent examples of the genre including Die Hard the Lethal Weapon films The Usual Suspects Seven Devil in a Blue Dress and Murder by Numbers in order to explore social anxieties about masculinity and crime and Hollywood's conceptions of gender Up until the early 1990s Gates argues the primary focus of the detective genre was the masculinity of the hero However from the mid 1990s onward the genre has shifted to more technical portrayals of crime scene investigation forensic science and criminal profiling offering a reassuring image of law enforcement in the face of violent crime By investigating the evolution of the detective film Gates suggests perhaps we can detect the male

The teacher Andrew Jackson Davis, 1910 *A Companion to Pedro Almodóvar* Marvin D'Lugo, Kathleen M. Vernon, 2013-02-22 A Companion to Pedro Almodóvar Marvin D Lugo and Kathleen M Vernon give us the ideal companion to Pedro Almodóvar's films Established and emerging writers offer a rainbow of insights for fans as well as academics Jerry W Carlson Professor of Film Studies The City College Graduate Center CUNY Rarely has a contemporary film artist been treated to the kind of broad

rich discussion of their work that can be found in *A Companion to Pedro Almodóvar* by Richard Pea, a Professor of Film Studies at Columbia University. Once the enfant terrible of Spain's youth culture explosion, the *Movida*, Pedro Almodóvar's distinctive film style and career longevity have made him one of the most successful and internationally known filmmakers of his generation. Offering a state-of-the-art appraisal of Almodóvar's cinema, this original collection is a searching analysis of his technique and cultural significance that includes work by leading authorities on Almodóvar as well as talented young scholars. Crucially included here are contributions by film historians from Almodóvar's native Spain where he has been undervalued by the academic and critical establishment. With a balance between textual and contextual approaches, the book expands the scope of previous work on the director to explore his fruitful collaborations with fellow professionals in the areas of art design, fashion, and music, as well as the growing reach of a global Almodóvar brand beyond Europe and the United States to Latin America and Asia. It also proposes a reevaluation of the political meanings and engagement of his cinema from the perspective of the profound cultural and historical upheavals that have transformed Spain since the 1970s.

The Guiding symptoms of our materia medica. v. 6, 1888 Constantine Hering, 1888

The Guiding Symptoms of Our Materia Medica: Hepar sulph. Calc. - Lachesis Constantine Hering, 1888

A Jungian Understanding of Symbolic Function and Forms Dominique Boukhabza, 2023-08-11

The purpose of this book is to clarify the function of the symbol and its place at the juncture of psychoanalysis and other social sciences where the singular and the collective intersect and whose laws are identical. The debate between Freud and Jung about the symbol is well known by examining the points of contradiction between their respective approaches; this book seeks to place them in fruitful tension rather than categorical opposition and explore their similarities and differences. In later chapters, the author further analyses the function of the symbol in relation to the topics of myth, anthropology, and dreams. This thoughtful book will appeal to those interested and involved in analytical psychology and psychoanalysis as well as psychiatrists and psychologists.
