Syncretism and Christian Tradition Ross Kane, 2020-11-11 Syncretism has been a part of Christianity from its very beginnings Defined as the phenomena of religious mixture syncretism carries a range of connotations In Christian theology syncretism shifted from a compliment during the Reformation to an outright insult in the twentieth and twenty first centuries Ross Kane argues that the history of syncretism s use accentuates wider interpretive problems drawing attention to attempts by Christian theologians to protect the category of divine revelation from perceived human interference Syncretism and Christian Tradition examines how the concept of race figures into dominant religious traditions associated with imperialism and reveals how syncretism can act a vital means of the Holy Spirit s continuing revelation of Jesus

Alevis in Europe Tözün Issa, 2016-07-22 The Alevis are a significant minority in Turkey and now also in the countries of Western Europe Over the past century many of them have migrated from rural enclaves on the Anatolian plateau to the great cities of Istanbul and Ankara and from there to the countries of the European Union This book asks who are they How do they construct their identities now and in the past in Turkey and in Europe A range of scholars writing from sociological historical socio psychological and political perspectives present analysis and research that shows the Alevi communities grouping and regrouping defining and redefining sometimes as an ethnic minority sometimes as religious groups sometimes around a political philosophy contingently responding to circumstances of the Turkish Republic s political position and to the immigration policies of Western Europe Contributors consider Alevi roots and cultural practices in their villages of origin the changes in identity following the migration to the gecekondu shanty towns surrounding the cities of Turkey the changes consequent on their second diaspora to Germany the UK Sweden and other European countries and the implications of European citizenship for their identity This collection offers a new and significant contribution to the study of migration and

minorities in the wider European context *The Caliph and the Imam* Toby Matthiesen,2023-02-07 The authoritative account of the sectarian division that for centuries has shaped events in the Middle East and the Islamic world In 632 soon after the prophet Muhammad died a struggle broke out among his followers as to who would succeed him The majority argued that the new leader of Islam should be elected by the community s elite Others believed only members of Muhammad s family could lead This dispute over who should guide Muslims the appointed Caliph or the bloodline Imam marks the origin of the Sunni Shii split in Islam Toby Matthiesen explores this hugely significant division from its origins to the present day Moving chronologically his book sheds light on the many ways that it has shaped the Islamic world outlining how over the centuries Sunnism and Shiism became Islams two main branches particularly after the Muslim Empires embraced sectarian identity It reveals how colonial rule institutionalised divisions between Sunnism and Shiism both on the Indian subcontinent and in the greater Middle East giving rise to pan Islamic resistance and Sunni and Shii revivalism It then focuses on the fall out from the 1979 revolution in Iran and the US led military intervention in Iraq As Matthiesen shows however though Sunnism and Shiism have had a long and antagonistic history most Muslims have led lives characterised by confessional ambiguity and peaceful co existence Tensions arise when sectarian identity becomes linked to politics Based on a synthesis of decades of scholarship in numerous languages *The Caliph and the Imam* will become the standard text for readers looking for a deeper understanding of contemporary sectarian conflict and its historical roots *Shi'a Minorities in the Contemporary World* Oliver Scharbrodt,2020-06-18 Offers a set of new comparative perspectives on the experiences of Shi a Muslim minorities outside the Muslim heartland Middle East North Africa Central and South Asia and discusses the challenges these communities face as a minority within a minority *Kizilbash-Alevis in Ottoman Anatolia* Ayfer Karakaya-Stump,2020-01-10 The Kizilbash were at once key players in and the foremost victims of the Ottoman Safavid conflict that defined the early modern Middle East Today referred to as Alevis they constitute the second largest faith community in modern Turkey with smaller pockets of related groups in the Balkans Yet several aspects of their history remain little understood or explored This first comprehensive socio political history of the Kizilbash Alevi communities uses a recently surfaced corpus of sources generated within their milieu It offers fresh answers to many questions concerning their origins and evolution from a revolutionary movement to an inward looking religious order **Iraq** Heather Bleaney,Roper,Peter Sluglett,2004-06-01 Well considered answers to the many questions raised by the situation in Iraq past and present are rare This first comprehensive thematically organised bibliography devoted to Iraq is based on the full Index Islamicus database and is drawn from a wide variety of European language journals and books Featuring an extensive introduction to the subject and its literature by Peter Sluglett this bibliography will help readers to find their way through the massive secondary literature now available Following the pattern established by the Index Islamicus both journal articles and book publications are included as well as important internet resources The editors have taken care to add much new material

to bring its coverage up to date and supplement the previously published volumes while the most important and or influential publications are conveniently highlighted in the introduction An indispensable gateway for all those with a more than superficial interest in what is and what has been happening in this nation so much the focus of attention today **The Alevis in Turkey** David Shankland,2003-12-08 This is the only volume dedicated to the Alevis available in English and based on sustained fieldwork in Turkey The Alevis now have an increasingly high profile for those interested in the diverse cultures of contemporary Turkey and in the role of Islam in the modern world As a heterodox Islamic group the Alevis have no established doctrine This book reveals that as the Alevi move from rural to urban sites they grow increasingly secular and their religious life becomes more a guiding moral culture than a religious message to be followed literally But the study shows that there is nothing inherently secular proof within Islam and that belief depends upon a range of contexts

Middling Romanticism Zachary Sng,2020-06-02 Romanticism is often understood as an age of extremes yet it also marks the birth of the modern medium in all senses of the word Engaging with key texts of the romantic period the book outlines a wide reaching project to re imagine the middle as a constitutive principle Sng argues that Romanticism dislodges such terms as medium moderation and mediation from serving as mere self evident tools that conduct from one pole to another Instead they offer a dwelling in and with the middle an attention to intervals interstices and gaps that make these terms central to modern understandings of relation
