Curative Illnesses Julie Robert, 2016-02-18 A necessary second opinion on the national implications of an epidemic of sick literary characters **Inclusion & Exclusion in/au Canada** Dagmara Drewniak, Ewelina Feldman-Kołodziejuk, Piotr Sadkowski, Joanna Warmuzińska-Rogóż, 2024-04-15 The volume convenes English and French speaking Canadianists who share a broad reflection on issues of exclusion and inclusion in Canadian contexts It is through historical but also linguistic cultural and literary perspectives that we can unveil and learn more about the particular instances of inclusion and exclusion The volume offers a kaleidoscopic view of Canadian history politics literature and culture The collected essays provide a discussion on a number of contemporary Anglophone and Francophone literary works the evaluation of Canadian language policy the reflection upon the literary canon as well as challenges of literary translation in a bilingual country the distinctness of Black Lives Matter Canada and last but not the least the historical status of New France *Figured Worlds* Professor John Clammer, J. R. Clammer, Sylvie Poirier, Eric Schwimmer, 2004-01-01 World Visions can conceive of everything except alternative world visions If this pronouncement by Umberto Eco is right how can any ethnic group conceive of living with another group on the same territory in Canada or elsewhere if their world visions are incompatible Can we sidestep incompatible world visions or should we try to understand them *Figured Worlds* explores the possibilities of equilibrium between commitments to mutual understanding and the framing of strategies of negotiation This collection begins its rich analytical investigation by describing how people Australian Aborigines New Zealand Maori Japanese and Africans first learn the figured worlds of their own culture made up of sensations affirmations and will prophecy revelation myth dream and metamorphoses It then sets out how diverse figured worlds within a given social system are related and concludes by offering insightful mappings of the dynamics of these relations perceived in both their existential ontological aspects as well as their material practical means Comprising scholarship that is half Canadian and half British this work offers important foundational perspectives into the thought worlds of cultures found within other cultures *Recent Social Trends in Canada, 1960-2000* Lance W. Roberts, 2005 Canadian society has changed dramatically since 1960 This work captures the scope and range of these changes through a systematic documentation of seventy eight social trends The introduction summarizes and locates the major waves of change The authors then document each trend in relation to eighteen thematic groups that include age community women labour management stratification social relations the state mobilizing institutions social forces ideologies households lifestyle leisure education integration and attitudes and values In contrast to many recent

works and journalistic reports Recent Social Trends in Canada concentrates on the trajectory of change rather than on current events It provides a longitudinal context in which unfolding events can be interpreted in a broader historical and international context Comparable volumes in the McGill Queen s Comparative Charting of Social Change series describe similar tendencies in the United States Quebec France Germany Italy Greece Russia and Bulgaria making it possible to situate the Canadian experience in a global context

Us, Them, and Others Elke Winter, 2011-10-01 How do countries come to view themselves as being multicultural Us Them and Others presents a dynamic new model for understanding pluralism based on the triangular relationship between three groups the national majority historically recognized minorities and diverse immigrant bodies Elke Winter s research illustrates how compromise between unequal groups is rendered meaningful through confrontation with real or imagined outsiders Us Them and Others sheds new light on the astonishing resilience of Canadian multiculturalism in the late 1990s when multicultural policies in other countries had already come under heavy attack Winter draws on analyses of English language newspaper discourses and a sociological framework to connect discourses of pan Canadian multicultural identity to representations of Quebecois nationalism immigrant groups First Nations and the United States Taking inspiration from the Canadian experience Us Them and Others is an enticing examination of national identity and pluralist group formation in diverse societies

Migration and Divided Societies Chris Gilligan, Susan Ball, 2016-04-08 The study of divided societies has focused historically on either ethnic divides in colonial or post colonial societies or on developed Western democracies which have ethnic power sharing Government structures The study of divided societies emerged historically at a moment when there was a growing interest in the study of immigration and inter ethnic relations in developed industrial nations These two sets of literature on divided societies and on immigration and inter ethnic relations have developed largely in isolation from each other Both sets of literature have also tended to focus on inter ethnic relations and have paid much less attention to migration This edited collection sets out to fill this gap in the literature through examining migration and ethnic division The case studies examined include developed industrial nations Canada and Norway a post colonial country Kenya and three cases which feature regularly in the divided societies literature Bosnia Northern Ireland and Israel Taken together these case studies suggest ways in which migration intersects with and complicates ethnic divides in divided societies This book was published as a special issue of Ethnopolitics
