Sound, Space, and the City Marina Peterson, 2012-05-22 On summer nights on downtown Los Angeles's Bunker Hill Grand Performances presents free public concerts for the people of the city A hip hop orchestra a mariachi musician an Afropop singer and a Chinese modern dance company are just a few examples of the eclectic range of artists employed to reflect the diversity of LA itself At these concerts shared experiences of listening and dancing to the music become sites for the recognition of some of the general aspirations for the performances for Los Angeles and for contemporary public life In Sound Space and the City Marina Peterson explores the processes from urban renewal to the performance of ethnicity and the experiences of

audiences through which civic space is created at downtown performances Along with archival materials on urban planning and policy Peterson draws extensively on her own participation with Grand Performances ranging from working in an information booth answering questions about the artists and the venue to observing concerts and concert goers as an audience member to performing onstage herself as a cellist with the daKAH Hip Hop orchestra The book offers an exploration of intersecting concerns of urban residents and scholars today that include social relations and diversity public space and civic life privatization and suburbanization and economic and cultural globalization At a moment when cities around the world are undertaking similar efforts to revitalize their centers Sound Space and the City conveys the underlying tensions of such projects and their relevance for understanding urban futures *Salvaging Community* Michael Touchton, Amanda J. Ashley, 2019-07-15 American communities face serious challenges when military bases close But affected municipalities and metro regions are not doomed Taking a long term flexible and incremental approach Michael Touchton and Amanda J Ashley make strong recommendations for collaborative models of governance that can improve defense conversion dramatically and ensure benefits even for low resource municipalities Communities can't control their economic situation or geographic location but as *Salvaging Community* shows communities can control how they govern conversion processes geared toward redevelopment and reinvention In *Salvaging Community* Touchton and Ashley undertake a comprehensive evaluation of how such communities redevelop former bases following the Department of Defense's Base Realignment and Closure BRAC process To do so they developed the first national database on military redevelopment and combine quantitative national analyses with three in depth case studies in California *Salvaging Community* thus fills the void in knowledge surrounding redevelopment of bases and the disparate outcomes that affect communities after BRAC The data presented in *Salvaging Community* points toward effective strategies for collaborative governance that address the present day needs of municipal officials economic development agencies and non profit organizations working in post BRAC communities Defense conversion is not just about jobs or economic rebound Touchton and Ashley argue Emphasizing inclusion and sustainability in redevelopment promotes rejuvenated communities and creates places where people want to live As localities and regions deal with the legacy of the post Cold War base closings and anticipate new closures in the future *Salvaging Community* presents a timely and constructive approach to both economic and community development at the close of the military industrial era *The New Urban Renewal* Derek S. Hyra, 2008-09 Two of the most celebrated black neighborhoods in the United States Harlem in New York City and Bronzeville in Chicago were once plagued by crime drugs and abject poverty But now both have transformed into increasingly trendy and desirable neighborhoods with old buildings being rehabbed new luxury condos being built and banks opening branches in areas that were once redlined In *The New Urban Renewal* Derek S Hyra offers an illuminating exploration of the complicated web of factors local national and global driving the remarkable revitalization of these two iconic black communities How did these formerly notorious ghettos

become dotted with expensive restaurants health spas and chic boutiques And given that urban renewal in the past often meant displacing African Americans how have both neighborhoods remained black enclaves Hyra combines his personal experiences as a resident of both communities with deft historical analysis to investigate who has won and who has lost in the new urban renewal He discovers that today s redevelopment affects African Americans differentially the middle class benefits while lower income residents are priced out Federal policies affecting this process also come under scrutiny and Hyra breaks new ground with his penetrating investigation into the ways that economic globalization interacts with local political forces to massively reshape metropolitan areas As public housing is torn down and money floods back into cities across the United States countless neighborhoods are being monumentally altered The New Urban Renewal is a compelling study of the shifting dynamics of class and race at work in the contemporary urban landscape **Separate Societies**

William Goldsmith,Edward Blakely,2010-06-18 An examination of the presence and persistence of urban poverty and the dilemmas of local reform **Tales of Two Cities** Sylvia Bashevkin,2011-11-01 In the age of globalization state restructuring is changing the political landscape How does reshaping local government affect citizen involvement in public life As cities move between centralized and decentralized governance and conservative and progressive leadership what brings out the best and the worst in civic engagement In this thought provoking book Sylvia Bashevkin examines the consequences of divergent restructuring experiences in London and Toronto By focusing on the forced amalgamation of local boroughs in Toronto and the creation of a new metropolitan authority in London Tales of Two Cities explores the fallout for women as urban citizens Ultimately context is crucial to whether municipal change signals pessimism or promise Clear insightful and prescient Tales of Two Cities will appeal to those interested in civic affairs political inclusion and the future of democracy in major urban centres Worlding Cities Ananya Roy,Aihwa Ong,2011-06-09 Worlding Cities is the first serious examination of Asian urbanism to highlight the connections between different Asian models and practices of urbanization It includes important contributions from a respected group of scholars across a range of generations disciplines and sites of study Describes the new theoretical framework of worlding Substantially expands and updates the themes of capital and culture Includes a unique collection of authors across generations disciplines and sites of study Demonstrates how references to Asian power success and hegemony make possible urban development and limit urban politics
