The Civil War and Interregnum G. E. Aylmer, John Stephen Morrill, 1979 Researching Local History Stuart A. Raymond, 2022-09-08 How has the place we live in changed developed and grown over the centuries That is the basic question local historians seek to answer The answer is to be found in the sources of information that previous generations have left us The records of parish county and diocesan administration of the courts of the national government and of private estates all have something to tell us about the history of the locality we are interested in So do old newspapers and other publications All of these sources are readily available but many have been little used Local historians come from a wide diversity of backgrounds But whether you are a student researching a dissertation a family historian interested in the wider background history of your family a teacher a librarian an archivist an academic or are merely interested in the history of your own area this book is for you If you want to research local history you need a detailed account of the myriad sources readily available This book provides a comprehensive overview of those sources and its guidance will enable you to explore and exploit their vast range It poses the questions which local historians ask and identifies the specific sources likely to answer those questions *The Oxford Companion to Family and Local History* David Hey, 2010-02-25 The Oxford Companion to Family and Local History is the most authoritative guide available to all things associated with the family and local history of the British Isles It provides practical and contextual information for anyone enquiring into their English Irish Scottish or Welsh origins and for anyone working in genealogical research or the social history of the British Isles This fully revised and updated edition contains over 2 000 entries from adoption to World War records Recommended web links for many entries are accessed and updated via the Family and Local History companion website This edition provides guidance on how to research your family tree using the internet and details the full range of online resources available Newly structured for ease of use thematic articles are followed by the A Z dictionary and detailed appendices which include further reading New articles for this edition are A Guide for Beginners Links between British and American Families Black and Asian Family History and an extended feature on Names With handy research tips a full background to the social history of communities and individuals and an updated appendix listing all national and local record offices with their contact details this is an essential reference work for anyone wanting advice on how to approach genealogical research as well as a fascinating read for anyone interested in the past *Local History in England* W. The Local Historian, 1996 Issues for autumn 1961 include the Standing Conference for Local History Bulletin *Sources for English Local History* W. B. Stephens, 1973 'The Furie of the Ordnance' Stephen Bull, 2008 Shows how new developments in guns and artillery played a decisive role in the English Civil War NEW LOW PRICE The English Civil War has frequently been depicted as a struggle between Cavaliers and Roundheads in which technology played little part The first hand sources now tell us that this romantic picture is deeply flawed revealing a reality of gunpowder artillery and a grinding struggle of siege and starvation As with naval warfare developments in gun technology drastically changed land warfare in the years leading up to 1642 The Civil War was itself shaped largely by the availability of munitions A failure to procure them in 1643 and 1644 combined with abortive attempts on London ultimately proved the downfall of the Royalists Moreover a final move away from fortified local garrisons reshaped both the nature of warfare in England and the country itself STEPHEN BULL is Curator of Military History and Archaeology Lancashire Museums

The Experience of Revolution in Stuart Britain and Ireland Michael J. Braddick, David L. Smith, 2011-06-09 This volume ranges widely across the social religious and political history of revolution in seventeenth century Britain and Ireland from contemporary responses to the outbreak of war to the critique of the post regicidal regimes from royalist counsels to Lilburne's politics and across the three Stuart kingdoms However all the essays engage with a central issue the ways in which individuals experienced the crises of mid seventeenth century Britain and Ireland and what that tells us about the nature of the Revolution as a whole Responding in particular to three influential lines of interpretation local religious and British the contributors all leading specialists in the field demonstrate that to comprehend the causes trajectory and consequences of the Revolution we must understand it as a human and dynamic experience as a process This volume reveals how an understanding of these personal experiences can provide the basis on which to build up larger frameworks of interpretation
