The Climate Pearl Jr., 2001-11-12 Here's a fascinating new book which answers the question not many have asked Where did racism come from and why the heck is it still here Pearl Jr asked this question to herself 30 years ago and has utilized her lifetime to seek the answers She says this is a book of original thought based solely and purely on facts that are supported by the scholarly community The evolution of the races an analysis of racial origins and habitats correlated with the development of different psyches marks this book as a first of its kind that proves a theory that just makes sense Although race relations is very complicated Pearl Jr's writing style is conversational and easy to read *The Climate A Perspective Unvisited* examines the complexities of the world according to race Pearl Jr chronologically details the stimulus that has created the world's varied racial populations differences in skin eye and hair color texture as well as gives the reason for the distinguishable eye shape of people from mainly Southeast Asia At a recent lecture Pearl Jr asked Am I the only person who wanted to know these answers The audience stood attentively silent waiting to hear more This manual is intended to create a new movement that states The final phase of equality is within our mind The era of slavery and the days of Jim Crow are legally abolished but what about mindsets that continue a belief system of inferiority and superiority based on race Were all human beings and there should've never been racism racism will go down in history as one of the most disastrous mistakes of mankind comments speaker author activist Pearl Jr The story of race is so repugnant that only a truly mature person can handle the truth therefore Pearl Jr was extremely conscientious about attitudes and wrote this manual with a solidly loving sympathetic and many times empathetic tone She also states the descendants of the oppressor need not feel responsible because the atrocities that racism created are not the fault of anyone living today *The Climate A Perspective Unvisited* has already sparked much discussion and Pearl Jr is well on her way to becoming an important leader and voice of reason in the struggle to abolish racism in every form This is a book for all races its main theme is education through explanation because according to Pearl Jr We all need to know the truth Since its first quarter 2002 release *The Climate A Perspective Unvisited* is already in its second printing If you have any questions comments and or want an event listing please feel free to call 818 323 3112 BE A PART OF ENDING RACISM BUY IT NOW

Playing Dead Elizabeth Greenwood, 2016-08-09 A darkly comic foray into the world of men and women who fake their own deaths the consultants who help them disappear and the private investigators who'll stop at nothing to bring them back to life A delightful read for anyone tantalized by the prospect of disappearing without a trace Erik Larson New York Times bestselling author of *Dead Wake* Delivers all the lo-fi spy shenanigans and caught red-handed schadenfreude you're hoping for NPR A lively romp The Boston Globe Grim fun The New York Times Brilliant topic absorbing book The Seattle Times The most literally escapist summer read you could hope for The Paris Review Is it still possible to fake your own death in the twenty-first century With six figures of student loan debt Elizabeth Greenwood was tempted to find out So off she sets on a darkly comic foray into the world of death fraud where for

30 000 a consultant can make you disappear but your suspicious insurance company might hire a private detective to dig up your coffin only to find it filled with rocks Greenwood tracks down a British man who staged a kayaking accident and then returned to live in his own house while all his neighbors thought he was dead She takes a call from Michael Jackson no he is not dead or so her new acquaintances would have her believe stalks message boards for people contemplating pseudocide and gathers intel on black market morgues in the Philippines where she may or may not obtain some fraudulent goodies of her own Along the way she learns that love is a much less common motive than money and that making your death look like a drowning virtually guarantees that you will be caught Disappearing while hiking however is a way great to go Playing Dead is a charmingly bizarre investigation in the vein of Jon Ronson and Mary Roach into our all too human desire to escape from the lives we lead and the men and women desperate enough to give up their lives and their families to start again **From Hitler to Jim Crow to Obama** ChitlinKraut,2009-11-20 Julian online I took note of an alarming number of thisisbyus writers posting horrendous and racist comments about a young Senator from Illinois actively campaigning for President of the United States Posting under the moniker Gabby on the Gulf Coast I promoted From Hitler to Jim Crow a story about the displaced in Pensacola my goal write for the world and move forward the first hand accounts about their struggles I so wanted the world to care about the continued and unrelenting day to day plight of human beings who lost everything due to a hurricane While some thisisbyus writers posted words revealing genuine concern and some provided positive feedback regarding the prose I chose there were countless others who took issue with the title From Hitler to Jim Crow Up to this point I never realized how many writers peddled their influence via virtual words attempting to set their plans of distraction in place against Senator Obama Embracing a laissez faire attitude has never been my style and I understood the price for the poor the displaced was too high for me to remain silent where these savvy writers were concerned As these writers began using Hitler and his ideology in their comparisons to Senator Obama I found myself becoming increasingly insulted Julian I am proud to be an American though naturalized and using any analogy to Hitler enabled me to confront their criminal words as it became clear Senator Obama had a real shot at the White House Conversely Senator Hillary Clinton's supporters became to a greater extent venomous with what I perceived to be their race based objections used as diversions when they saw the handwriting on the wall Senator Obama was becoming the frontrunner in the race to the White House As I held tight to my dream and goal to show the plight of the displaced in Pensacola I found myself washed into a political hurricane once other writers became more and more aware of the strength of my conviction that Senator Obama was the only logical choice for President of the United States of America 2006/2007 Black Authors and Published Writers Directory Grace Adams,2006-07 First of its kind internationally a unique and innovative indexed listings of the Black Literary Market Place Easy to read chapters features Black authors writers poets song film and playwrights publishers producers agents librarians bookstores columnists book and music critic reviewers editors newspapers magazines television and radio talk shows

Petersen, 2023-11-28 Climate God and Uncertainty moves beyond Bruno Latour's thought to understand what climate change means for philosophical anthropology and wider culture What are for example the philosophical implications of climate change and its associated uncertainties Referring mainly to works by Latour William James and Heinrich Rickert Petersen develops transcendental naturalism to reinterpret the interface between science and politics in the context of climate change He highlights for instance issues such as the religious disenchantment of nature the scientific disbelief in a plurality of value laden perspectives and the disregard for non modern worldviews in politics In developing its argument the book makes a methodological intervention on the sort of naturalism that guides both Latour's work and a large part of the academic field called science and religion Praise for Climate God and Uncertainty The challenges of a changing climate raise disturbing questions about being human in the world ones that cannot adequately be answered through scientific inquiry In this original interrogation and extension of the work of Bruno Latour Petersen constructs a philosophical position that takes seriously the realities of a changing natural world the human search to ground our sense of value and the possibility of God Climate God and Uncertainty is an exciting new addition to the small but growing literature on climate change religion and philosophy Mike Hulme University of Cambridge This innovative and exciting work explores the rich potential of transcendental naturalism as a bridge between science and religion Drawing on the work of William James Heinrich Rickert and Bruno Latour Petersen maps out a fresh approach that goes beyond current accounts of naturalism opening up a deeply satisfying account of our engagement with the natural world Alister McGrath Emeritus Andreos Idreos Professor of Science and Religion University of Oxford How to live with the pervasive reality of uncertainty and a plurality of perspectives in science religion and politics without playing down the sciences and our responsibilities The transcendental naturalism Arthur Petersen articulates in this book respects science while leaving room for other elements wonder judgements and values and the way we construct provisional models of reality These issues are especially acute in the context of climate change when we face the interplay of science and policy Petersen stresses the importance of imagination to articulate meaning and of recognising a plurality of value laden perspectives striving for responsible action and sensitivity to that which may escape planning and policy This book can be read fruitfully in at least two ways as a highly relevant reflection on religion and science in the face of climate change and as a profound philosophical analysis of pluralism and provisionality and hence of living with uncertainty Willem B Drees Professor Emeritus of Philosophy of Religion and Ethics Leiden University and of Philosophy of the Humanities Tilburg University
