The Collected Poems Of Georges Bataille:

The Collected Poems of Georges Bataille Georges Bataille, 1999 This is the first collected English translation of Bataille's poems Bataille's poetry is definitely the poetry of a philosopher but it is also a poetry with an obsessively erotic often scatological edge frequently pushing the boundary of what is or isn't obscene Bataille believed that everything relates to the workings of desire and death in sexuality but he also believed that poetry was the product of hate and other extreme emotions just as much as erotic pleasure accedes to self annihilation But Bataille was interested in actual action not just disengaged hypothesis concerning the sexual act Dufour Editions is pleased to bring Bataille's poetry to print in English This is the audacious frightful side of surrealism Library Journal Bataille produced some of the most transcendent pointedly filthy literature of the century and these poems together in English for the first time are no exception Publishers Weekly

Dead Letters to Nietzsche, or the Necromantic Art of Reading Philosophy Joanne Faulkner, 2010-04-28 *Dead Letters to Nietzsche* examines how writing shapes subjectivity through the example of Nietzsche's reception by his readers including Stanley Rosen David Farrell Krell Georges Bataille Laurence Lampert Pierre Klossowski and Sarah Kofman More precisely Joanne Faulkner finds that the personal identification that these readers form with Nietzsche's texts is an enactment of the kind of identity formation described in Lacanian and Kleinian psychoanalysis This investment of their subjectivity guides their understanding of Nietzsche's project the revaluation of values Not only does this work make a provocative contribution to Nietzsche scholarship but it also opens in an original way broader philosophical questions about how readers come to be invested in a philosophical project and how such investment alters their subjectivity

García Lorca at the Edge of Surrealism David F. Richter, 2014-10-15 *García Lorca at the Edge of Surrealism* The Aesthetics of Anguish examines the variations of surrealism and surrealist theories in the Spanish context studied through the poetry drama and drawings of Federico García Lorca 1898-1936 In contrast to the idealist and subconscious tenets espoused by surrealist leader André Breton which focus on the marvelous automatic creative processes and sublimated depictions of reality Lorca's surrealist impulse follows a trajectory more in line with the theories of French intellectuals such as Georges Bataille 1897-1962 who

was expelled from Breton's authoritative group Bataille critiques the lofty goals and ideals of Bretonian surrealism in the pages of the cultural and anthropological review Documents 1929-1930 in terms of a dissident surrealist ethno-poetics. This brand of the surreal underscores the prevalence of the bleak or darker aspects of reality: crisis, primitive sacrifice, the death drive, and the violent representation of existence portrayed through formless base matter such as blood, excrement, and fragmented bodies. The present study demonstrates that Bataille's theoretical and poetic expositions, including those dealing with the informe, the formless, and the somber emptiness of the void, engage the trauma and anxiety of surrealist expression in Spain, particularly with reference to the anguish, desire, and death that figure so prominently in Spanish texts of the 1920s and 1930s, often qualified as surrealist. Drawing extensively on the theoretical, cultural, and poetic texts of the period, García Lorca at the Edge of Surrealism offers the first book-length consideration of Bataille's thinking within the Spanish context, examined through the work of Lorca, a singular proponent of what is here referred to as a dissident Spanish surrealism. By reading Lorca's surrealist texts, including Poeta en Nueva York, Viaje a la luna, and El público through the Bataillean lens, this volume both amplifies our understanding of the poetry and drama of one of the most important Spanish writers of the twentieth century and expands our perspective of what surrealism in Spain means.

Weird Mysticism Brad Baumgartner, 2020-11-17. *Weird Mysticism* identifies and evaluates a new category of theoretical inquiry by showing the influence of speculative writing on three intersecting critical categories: horror fiction, apophatic mysticism, and philosophical pessimism. Exploring the work of Thomas Ligotti, Georges Bataille, and E. M. Cioran, Baumgartner argues that these weird mystics employ an innovative mode of negative writing that seeks to merge new conceptions of reality. While exploring perennial questions about the absolute, the Outside, and other philosophical concepts, these authors push the limits of representation, experimenting with literary form, genre bending, and aphoristic discourse. As their works reveal, the category of weird mysticism both conjoins and obscures the link between traditional mysticism and philosophical horror fiction, with weirdness itself being the central magnet that draws the seemingly disparate realms of horror fiction, philosophy, and mysticism together. Highlighting the theoretical stakes of the horror genre, Baumgartner's study reveals how the mystical potentially recuperates the limits of philosophical thinking, enabling reflection on, and possibly challenging, the limits of human understanding.

The Poetry of Georges Bataille Georges Bataille, 2018. Presents a new window into the literary, philosophical, and theological concerns of this enigmatic thinker and writer.

Futures of Life, Death on Earth Philippe Lynes, 2018-11-19. Life on earth is currently approaching what has been called the sixth mass extinction, also known as the Holocene or anthropocene extinction. Unlike the previous five, this extinction is due to the destructive practices of a single species, our own. Up to 50% of plant and animal species face extinction by the year 2100, as well as 90% of the world's languages. Biocultural diversity is a recent appellation for thinking together the earth's biological, cultural, and linguistic diversity, the related causes of their extinctions, and the related steps that need to be taken to ensure their sustainability. This

book turns to the work of Jacques Derrida to propose a notion of general ecology as a way to respond to this loss to think the ethics ontology and epistemology at stake in biocultural sustainability and the life and death we differentially share on earth with its others It articulates an appreciation of the ecological and biocultural stakes of deconstruction and provokes new ways of thinking about a more just sharing of the earth

Dylan Thomas John Goodby, Christopher Wigginton, 2019-03-29 A collection of essays on one of the twentieth century's most popular yet critically neglected authors this book explores the full range of Thomas's work It uses approaches such as marxism feminism and deconstruction previously neglected by critics and focuses on his complex relationships with surrealism modernism Wales popular culture the USA and his own contemporaries In doing so it restores Thomas to his rightful place as a major twentieth century literary figure and cultural icon

Complete Poems Edith Södergran, 1984 When she died in poverty at 31 Edith Södergran had been dismissed as a mad megalomaniac aristocrat by most of her Finnish contemporaries Today she is regarded as Finland's greatest modern poet Her poems written in Swedish are intensely visionary and have been compared with Rimbaud's yet they also show deep affinities with Russian poetry with the work of Blok Mayakovsky and Severyanin in particular Born in 1892 of a Finno-Swedish family Edith Södergran grew up in Raivola a village on the Russian border but was educated at a German school in St Petersburg Her early influences were Goethe and Heine and she wrote first in German The driving force of Edith Södergran's mature Swedish poetry was her struggle against TB which she contracted in 1908 For much of her short life she was a semi-invalid in sanatoria in Finland and Switzerland Her last years were spent amid the turmoil of the Russian Revolution and in desperate poverty in Raivola where she died in 1923 Edith Södergran saw herself as an inspired free spirit of a new order a disciple on her own terms of Nietzsche then of the nature mystic Rudolf Steiner and finally of Christ But her voice is subtle and wholly original It transcends the limits imposed by her illness to make lyrical statements about the violence and darkness of the modern world imagistic poems that are alarming in the surreal beauty of their fragmentary diction David McDuff's edition is the first complete translation into English of Edith Södergran's Swedish poetry His versions adhere as closely as possible to the spirit and the letter of the Swedish original In his introductory essay David McDuff gives a comprehensive and illuminating account of Edith Södergran's life and work
