The Collected Poems of Joseph Hall Joseph Hall,1949 **Redefining Elizabethan Literature** Georgia

Brown,2004-11-18 *Redefining Elizabethan Literature* examines the new definitions of literature and authorship that emerged in one of the most remarkable decades in English literary history the 1590s Georgia Brown analyses the period's obsession with shame as both a literary theme and a conscious authorial position She explores the related obsession of this generation of authors with fragmentary and marginal forms of expression such as the epyllion paradoxical encomium sonnet sequence and complaint Combining developments in literary theory with close readings of a wide range of Elizabethan texts Brown casts light on the wholesale eroticisation of Elizabethan literary culture the form and meaning of Englishness the function of gender and sexuality in establishing literary authority and the contexts of the works of Shakespeare Marlowe Spenser and Sidney This study will be of great interest to scholars of Renaissance literature as well as cultural history and gender studies

The collected poems of Joseph Hall, Bishop of Exeter and Norwich Joseph Hall,1949 *The Oxford History of Classical Reception in English Literature* Patrick Cheney,Philip Hardie,2015-10-29 *The Oxford History of Classical Reception* OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers' engagement with classical literature casts as much light on the classical originals as it does on the English writers' own cultural context This second volume covers the years 1558-1660 and explores the reception of the ancient genres and authors in English Renaissance literature engaging with the major and many of the minor writers of the period including Shakespeare Marlowe Spenser and Jonson Separate chapters examine the Renaissance institutions and contexts which shape the reception of antiquity and an annotated bibliography provides substantial material for further reading

The University in Society, Volume I Lawrence Stone,2019-01-29 The essays in this book seek to establish a true sociology of education Their primary concern is the relationship between formal education and other social forces through the ages Thus the book combines the history of higher education with social history in order to understand the process of historical change To ascertain the responses of the universities to such broad social changes as the Renaissance the Reformation and the Industrial Revolution the authors ask such questions as who were the students and how many were there how did they get to the university and why did they come how did they spend their time and what did they learn what

jobs did they fill and how did what they learned help them in later life how have faculty members viewed their roles over the years Lawrence Stone is Dodge Professor of History at Princeton University Chairman of the History Department and Director of the Shelby Cullom Davis Center for Historical Studies Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Cambridge Companion to English Literature, 1500-1600 Arthur F. Kinney, 2000 The first comprehensive account of English Renaissance literature and the culture which shaped it Catalog of Printed Books of the Folger Shakespeare Library, Washington, D.C. Folger Shakespeare Library, 1970 **Ben Jonson and Possessive Authorship** Joseph Loewenstein, 2002-06-27 What is the history of authorship of invention of intellectual property Joseph Loewenstein describes the fragmentary and eruptive emergence of a key phase of the bibliographical ego a specifically Early Modern form of authorial identification with printed writing In the work of many playwrights and non dramatic writers and especially that of Ben Jonson that identification is tinged remarkably with possessiveness This 2002 book examines the emergence of possessive authorship within a complex industrial and cultural field It traces the prehistory of modern copyright both within the monopolistic practices of London s acting troupes and its Stationers Company and within a Renaissance cultural heritage Under the pressures of modern competition a tradition of literary artistic and technological imitation began to fissure unleashing jealous accusations of plagiarism and ingenious new fantasies of intellectual privacy Perhaps no one was more creatively attuned to this momentous transformation in Early Modern intellectual life than Ben Jonson *St Paul's Cathedral Precinct in Early Modern Literature and Culture* Roze Hentschell, 2020-06-16 Prior to the 1666 fire of London St Paul s Cathedral was an important central site for religious commercial and social life in London The literature of the period both fictional and historical reveals a great interest in the space and show it to be complex and contested with multiple functions and uses beyond its status as a church St Paul s Cathedral Precinct in Early Modern Literature and Culture Spatial Practices animates the cathedral space by focusing on the every day functions of the building deepening and sometimes complicating previous works on St Paul s St Paul s Cathedral Precinct in Early Modern Literature and Culture is a study of London s cathedral its immediate surroundings and its everyday users in early modern literary and historical documents and images with special emphasis on the late sixteenth and early seventeenth centuries It discusses representations of several of the seemingly discrete spaces of the precinct to reveal how these spaces overlap with and inform one another spatially and argues that specific locations should be seen as mutually constitutive and in a dynamic and ever evolving state The varied uses of the precinct including the embodied spatial practices of early modern Londoners and visitors are examined including

the walkers in the nave sermon goes those who shopped for books the residents of the precinct the choristers and those who were devoted to church repairs and renovations

Patrons and Patron Saints in Early Modern English Literature Alison Chapman, 2012

This book visits the fact that in the pre modern world saints and lords served structurally similar roles acting as patrons to those beneath them on the spiritual or social ladder with the word patron used to designate both types of elite sponsor Chapman argues that this elision of patron saints and patron lords remained a distinctive feature of the early modern English imagination and that it is central to some of the key works of literature in the period Writers like Jonson Shakespeare Spenser Drayton Donne and Milton all use medieval patron saints in order to represent and to challenge early modern ideas of patronage not just patronage in the narrow sense of the immediate economic relations obtaining between client and sponsor but also patronage as a society wide system of obligation and reward that itself crystallized a whole culture's assumptions about order and degree The works studied in this book ranging from Shakespeare's 2 Henry VI written early in the 1590s to Milton's Masque Performed at Ludlow Castle written in 1634 are patronage works either aimed at a specific patron or showing a keen awareness of the larger patronage system This volume challenges the idea that the early modern world had shrugged off its own medieval past instead arguing that Protestant writers in the period were actively using the medieval Catholic ideal of the saint as a means to represent contemporary systems of hierarchy and dependence Saints had been the ideal and idealized patrons of the medieval world and remained so for early modern English recusants As a result their legends and iconographies provided early modern Protestant authors with the perfect tool for thinking about the urgent and complex question of who owed allegiance to whom in a rapidly changing world
