Connections After Colonialism Matthew Brown, Gabriel Paquette, 2013-01-15 Contributing to the historiography of transnational and global transmission of ideas *Connections after Colonialism* examines relations between Europe and Latin America during the tumultuous 1820s In the Atlantic World the 1820s was a decade marked by the rupture of colonial relations the independence of Latin America and the ever widening chasm between the Old World and the New

Connections after Colonialism edited by Matthew Brown and Gabriel Paquette builds upon recent advances in the history of colonialism and imperialism by studying former colonies and metropolises through the same analytical lens as part of an attempt to understand the complex connections political economic intellectual and cultural between Europe and Latin America that survived the demise of empire. Historians are increasingly aware of the persistence of robust links between Europe and the new Latin American nations. This book focuses on connections both during the events culminating with independence and in subsequent years a period strangely neglected in European and Latin American scholarship. Bringing together distinguished historians of both Europe and America the volume reveals a new cast of characters and relationships including unrepentant American monarchists compromise seeking liberals in Lisbon and Madrid who envisioned transatlantic federations British merchants in the River Plate who saw opportunity where others saw risk public moralists whose audiences spanned from Paris to Santiago de Chile and plantation owners in eastern Cuba who feared that slave rebellions elsewhere in the Caribbean would spread to their island. India and China in the Colonial World Madhavi Thampi, 2017-07-06 India and China in the Colonial World brings together thirteen essays by eminent Indian and Chinese scholars as well as young researchers who look at the multidimensional interaction between the two countries. This interaction was of many kinds and took place at various levels. This volume casts new light on some of the problems that have confronted the relations between India and China as new states and in doing so challenges stereotyped images of this relationship. The major areas of India China relationships covered in this book include some aspects of the situation during and after World War II. Some papers such as those on the importance of Shanghai in Sino Indian trade the presence of the Chinese community in India and Indians in China Indian fighters in the Taiping Rebellion Gandhi and the Chinese in South Africa and ties between south west China and north east India during World War II present the findings of new research. Others such as those pertaining to India China relations in the period such as the opium trade the controversial visit of Rabindranath Tagore to China and the complexity of Subhash Chandra Bose's position with relation to both China and Japan have been put in a new light. The essays in this book are particularly relevant as they help to understand the relationship between India and China in the context of a historical perspective.

Latin America in the Middle Period, 1750-1929 Stuart F. Voss, 2002 The customary division of Latin American history into colonial and modern periods has come into question recently. This new book demonstrates that there was a middle period in Latin America's historical evolution since the European Conquest one no longer colonial but not yet modern which has left a legacy in its own right for contemporary Latin America. This volume is a narrative text on Latin America's long nineteenth century from the period of Imperial Reforms in the late eighteenth century up to the Great Depression. Incorporating local and regional studies from the last three decades which have profoundly broadened and

altered customary views about Latin America the book is a synthesis of this Middle Period Latin America in the Middle Period re evaluates the relation between subsistence and market production in the post independence economy stressing regional diversity It also re evaluates the mechanics of politics which customarily have been seen as liberal conservative caudillo oligarchy region nation and merchant landowner industrialist The text discusses the acceleration of the forces of modernization the rise of industrial capitalism and the beginnings of a national ordering of life in the late nineteenth and early twentieth centuries which eroded the fabric of Middle Period society a process consummated in the aftermath of world depression in the 1930s ushering in modern Latin America This new volume is an excellent resource for courses in nineteenth century Latin American history and the second half of Latin American history survey *Revisiting the Colonial Question in Latin America* Mabel Moraña, Carlos A. Jáuregui, 2008 From the configuration of Empire in the colonial period to the multiple facets of modern coloniality this book offers a challenging approach to the developments and effects of imperial domination and neocolonial rule in Latin American **Art on the Jesuit Missions in Asia and Latin America, 1542-1773** Gauvin A. Bailey, 1999 Through a sweeping look at Jesuit activities in Japan China Mughul India and Paraguay Bailey finds evidence of artistic hybridization as a means of communication and argues in favour of a paradigm of artistic exchange **Latin America In The World Economy** Frederick Stirton Weaver, 2018-02-13 Latin America in the World Economy considers the dual aspect of Latin American development how external factors phases of world capitalism since Columbus interweave with internal factors Latin American culture politics and social groups Weaver skillfully demonstrates how domestic social conflicts and power relations have consistently capitalized on changes in the international economy while conversely engagement with the international economy has consistently constrained local struggles and patterns of change Over half of Latin America in the World Economy focuses on the short twentieth century after 1930 and the way that the book frames recent events and processes in broad historical and comparative terms is appropriate for courses on world history and comparative development as well as for more specialized courses on Latin America *The Idea of Latin America* Walter D. Mignolo, 2009-02-09 The Idea of Latin America is a geo political manifesto which insists on the need to leave behind an idea which belonged to the nation building mentality of nineteenth century Europe Charts the history of the concept of Latin America from its emergence in Europe in the second half of the nineteenth century through various permutations to the present day Asks what is at stake in the survival of an idea which subdivides the Americas Reinstates the indigenous peoples and migrations excluded by the image of a homogenous Latin America with defined borders Insists on the pressing need to leave behind an idea which belonged to the nation building mentality of nineteenth century Europe
