Eckert, 1976 Ninety four year old Herbert Allen Boardman embarks on a desperate quixotic course of action to persuade the American government and the international scientific community of an imminent global catastrophe The HAB Theory Allan Wesley Eckert, 1977 **The Chicago of Fiction** James A. Kaser, 2011-02-01 The importance of Chicago in American culture has made the city's place in the American imagination a crucial topic for literary scholars and cultural historians While databases of bibliographical information on Chicago centered fiction are available they are of little use to scholars researching works written before the 1980s In *The Chicago of Fiction A Resource Guide* James A Kaser provides detailed synopses for more than 1 200 works of fiction significantly set in Chicago and published between 1852 and 1980 The synopses include plot summaries names of major characters and an indication of physical settings An appendix provides bibliographical information for works dating from 1981 well into the 21st century while a biographical section provides basic information about the authors some of whom are obscure and would be difficult to find in other sources Written to assist researchers in locating works of fiction for analysis the plot summaries highlight ways in which the works touch on major aspects of social history and cultural studies i e class ethnicity gender immigrant experience and race The book is also a useful reader advisory tool for librarians and readers who want to identify materials for leisure reading particularly since genre juvenile and young adult fiction as well as literary fiction are included *Essentials of the Theory of Fiction* Michael J. Hoffman, Patrick D. Murphy, 2005-07-06 A third edition of this anthology of the most influential and comprehensive writing on the theory of fiction from the 19th century through modernism and postmodernism to the present *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1977 **The Atlantis Blueprint** Colin Wilson, Rand Flem-Ath, 2008-12-10 A spellbinding blend of history and science scholarship and speculation this landmark work presents startling new evidence that traces archaeology's most enduring mysteries back to the lost civilization of Atlantis The Great Pyramid Stonehenge Machu Picchu For centuries these and other sacred sites have inspired wonder among those who ponder their origins Conventional science tells us they were constructed by local peoples working with the primitive tools of a fledgling civilization But these megaliths nonetheless continue to attract pilgrims scholars and adventurers drawn by the possibility that their true spiritual and technological secrets remain hidden Who could have built these elaborate monuments How did they do it And what were their incomprehensible efforts and sacrifices designed to accomplish Now comes a revolutionary theory that connects these mysteries to reveal a hidden global pattern the ancient work of an advanced civilization whose warnings of planetary cataclysm now reverberate across one hundred millennia International bestselling author Colin Wilson and Canadian researcher Rand Flem-Ath join forces to share startling evidence of a fiercely intelligent society dating back as much as 100 000 years one that sailed the oceans of the world building monuments to preserve and communicate its remarkable wisdom *The Atlantis Blueprint* is their term for a

sophisticated network of connections between these sacred sites that they trace to Atlantis a sophisticated maritime society that charted the globe from its home base in Antarctica until it was obliterated by the devastating global changes it anticipated but could not escape Here is adventure to realms beyond our imaginings to shifting poles changing latitudes into the world of ancient mariners who recharted the globe to astonishing discoveries about our ancestors Here are the great mysteries the incredibly complex geography of the Temple of Luxor the startling sophistication of Egyptian science and math and tantalizing similarities among the Hebrew Greek and Mayan alphabets to the Chinese lunar zodiac The Atlantis Blueprint opens up a Pandora's box of ancient mysteries lost worlds and millennial riddles It is a story as controversial fascinating dangerous and inspiring as any ever told

Piri Reis Map of 1513 Gregory C. McIntosh, 2012-03-15 One of the most beautiful maps to survive the Great Age of Discoveries the 1513 world map drawn by Ottoman admiral Piri Reis is also one of the most mysterious Gregory McIntosh has uncovered new evidence in the map that shows it to be among the most important ever made This detailed study offers new commentary and explication of a major milestone in cartography Correcting earlier work of Paul Kahle and pointing out the traps that have caught subsequent scholars McIntosh disproves the dubious conclusion that the Reis map embodied Columbus's Third Voyage map of 1498 showing that it draws instead on the Second Voyage of 1493-1496 He also refutes the popular misinterpretation that Reis's depictions of Antarctica are evidence of either ancient civilizations or extraterrestrial visitation McIntosh brings together all that has been previously known about the map and also assembles for the first time the translations of all inscriptions on the map and analyzes all place names given for New World and Atlantic islands His work clarifies long standing mysteries and opens up new ways of looking at the history of exploration
