Flannery, Joyce Marcus, 2003-06-01 A case study in the divergent evolution of Mexico's Zapotec and Mixtec civilizations this collection has become a basic resource in the literature of Mesoamerican prehistory and has been widely cited by scholars working on divergent evolution in other parts of the world Originally published by Academic Press in 1983 a new introduction by the editors updates the volume in terms of discoveries made during the subsequent two decades

Emergence and Change in Early Urban Societies Linda Manzanilla, 2013-11-11 This book gives an overview of different factors involved in the emergence and change in early urban societies in fourth millennium Mesopotamia and Egypt pre Shang China Classic horizon Central Mexico Oaxaca and the Maya Area and Middle Horizon societies in the Andean Region These factors range from centralized storage and redistributive economies agrarian models mercantile network control conflict and conquest conversion of military commanders into administrators political power through monumental construction and elite power through ideological change It discusses specific archaeological data useful in theoretical construction In the Introduction a discussion of different developmental processes of urban societies is made The Eastern Anatolian example emphasizes the role played by interregional exchange networks linking the Mesopotamian plains with the Syro Anatolian regions The emergence of an elite is related with the control of the movement of craft goods and raw materials more than with the appropriation of subsistence goods The Chinese example stresses the importance of conflict provoked by demographic pressures on resources The Mesoamerican cases relate to vast urban developments and manufacturing centers ideological importance of monumental planning and changing behavior of elites The Andean cases are related either to the transformation of theocratic leadership into military administrators or to the agricultural intensification model

Zapotec Monuments and Political History Joyce Marcus, 2020-02-12 Of the four major hieroglyphic writing systems of

ancient Mesoamerica the Zapotec is widely considered one of the oldest and least studied This volume assesses the origins and spread of Zapotec writing the use and role of Zapotec writing in the politics of the region and the decline of hieroglyphic writing in the Valley of Oaxaca Lavishly illustrated with maps photographs and original artwork **Intermediate Elites in Pre-Columbian States and Empires** Christina M. Elson,R. Alan Covey,2022-06-21 From the Mesoamerican highlands to the Colca Valley in Peru pre Columbian civilizations were bastions of power that have largely been viewed through the lens of rulership or occasionally through bottom up perspectives of resistance Rather than focusing on rulers or peasants this book examines how intermediate elites both men and women helped to develop sustain and resist state policies and institutions Employing new archaeological and ethnohistorical data its contributors trace a 2 000 year trajectory of elite social evolution in the Zapotec Wari Aztec Inka and Maya civilizations This is the first volume to consider how individuals subordinate to imperial rulers helped to shape specific forms of state and imperial organization Taking a broader scope than previous studies it is one of the few works to systematically address these issues in both Mesoamerica and the Central Andes It considers how these individuals influenced the long term development of the largest civilizations of the ancient Americas opening a new window on the role of intermediate elites in the rise and fall of ancient states and empires worldwide The authors demonstrate how such evidence as settlement patterns architecture decorative items and burial patterns reflect the roles of intermediate elites in their respective societies arguing that they were influential actors whose interests were highly significant in shaping the specific forms of state and imperial organization Their emphasis on provincial elites particularly shifts examination of early states away from royal capitals and imperial courts explaining how local elites and royal bureaucrats had significant impact on the development and organization of premodern states Together these papers demonstrate that intricate networks of intermediate elites bound these ancient societies together and that competition between individuals and groups contributed to their decline and eventual collapse By addressing current theoretical concerns with agency resistance to state domination and the co option of local leadership by imperial administrators it offers valuable new insight into the utility of studying intermediate elites Excavations at Cerro Tilcajete Christina Elson,2007-01-01 This volume part of a series on the prehistory and human ecology of the Valley of Oaxaca Mexico focuses on Cerro Tilcajete a secondary administrative center below Monte Albán the capital of the prehispanic Zapotec state **Mesoamerica After the Decline of Teotihuacan, A.D. 700-900** Richard A. Diehl,Janet Catherine Berlo,1989 *Ancient Mesoamerica* Richard E. Blanton,1993-04-30 In this revised and updated 1993 edition the authors synthesize recent research to provide a comprehensive survey of Mesoamerica Monte Albán's Hinterland, Part II Stephen Kowalewski,Gary Feinman,Laura Finsten,Richard E. Blanton,Linda Nicholas,1989-01-01 This two volume monograph is the final report and synthesis of the Valley of Oaxaca Settlement Pattern Project's full coverage surface survey and makes significant theoretical and methodological contributions to the investigation of social evolution cultural ecology and regional
