**The California Club** Vic Sartor,2018-07-24 Bridge is a complex card game that consistently tests the creativity and brain power of its players One of the most important aspects of the game is bidding the way players convey information about their hands to their partners They use this information to try to reach the optimum contract on any particular hand Vic Sartor is a retired teacher and seasoned bridge player who has developed a bidding system he calls The California Club over a 50 year playing career Some of the ideas presented here are completely original while others are what the author believes are improvements to commonly used treatments He presents his suggestions with a touch of humor freely acknowledging that many of them may be considered a bit unorthodox for widespread public adoption For instance it is not clear how many players will rush to start using the Rube Goldberg No Trump or the One Diamond with Muscles two of his more colorful inventions Nevertheless players who may be thinking about trying a strong club system or who already play one may find many useful ideas here whether or not they decide to give the entire system a try      **2/1 Game Force a Modern Approach** Neil H. Timm,2010-02 This book covers basic and advanced features of the Two Over One 2 1 Game Force bidding system which include Bergen and Combined Bergen Raises inverted minor suit raises with criss cross and flip flop cue bidding modified scroll bids and many more methods not used in Standard American or Precision This is not a book on conventions it is a book about bridge which incorporates conventions which allow the partnership to reach game or slam In this regard I have incorporated modern methods for hand evaluation developed by Marty Bergen New bidding conventions like SARS Shape Asking Relays after Stayman Quest transfers and an overview of Bridge Rules and Laws which will improve your approach to the bidding structure you may use today      Cairngorm Club Journal ,1911      The Optimal Modified 2/1-Club System Neil H. Timm Ph.D.,2022-03-23 My goal for The Modified Optimal 2 1 Club System is to show how to use the Optimal Point Count OPC method of hand evaluation developed by Patrick Darricades in his book Optimal Hand Evaluation 2019 to improve the dialogue between two players to achieve an optimal bridge contract The primary objective is to demonstrate how to apply the new system approach to contract bridge by illustrating a more accurate method of hand evaluation whether you

play 2 1 Standard American SA Acol or Precision among others The Two over One 2 1 Game Force bidding system was an improvement over the SA System that has been in effect and played by bridge players for many years Many claim that the advantage of the 2 1 system allows the partnership to know that game is possible with only a single bid provided one has 13 points As we shall see for suit contracts it is only true if the opening 2 1 bidder has 15 points not 12 13 points since 25 26 points do not result in game whenever a singleton in one hand finds wasted honor points in partner s hand Yet most 2 1 conventions call for 13 High Card Points HCP Another flaw of the 2 1 approach is the fact that opening 1 level suit bids have a wide bidding range 12 21 To eliminate this flaw the principles of Pinpoint Precision with 1 18 points and new responses associated with a new and improved hand evaluation method A major flaw of most Strong Club opening bids is that they are based solely on HCPs with opening bids of 1 16 17 HCP To correct these flaws among others the search for a better hand evaluation method and a better bidding system has been unrelenting Hand evaluation methods have been popularized by Milton Work Charles Goren Marty Bergen and Petkoy Zar and others All falling short when applied to the commonly used dialogue bidding systems The Optimal Point Count OPC method of hand evaluation corrects the many flaws of prior hand evaluation methods when applied to any bidding system In this book many traditional standard bidding practices that do not help to show suit fit and distribution are to be avoided or re defined Splinters and mini splinters which show the location of voids and singletons to help locate wasted honors the XYZ bidding convention cue bidding and new bids for the investigation of game and slam are among the cornerstone conventions reviewed in this book Newly defined 2 and 3 level bids to show hands with 6 7 card suits are defined to prevent the opponents from finding their optimal contract and to improve upon difficult bidding sequences using traditional bidding strategies The evaluation of one s Offense to Defense Ratio ODR why many well known bidding sequences must be avoided and an analysis of several old standard bridge laws rules are reviewed to show why they need not be used to improve one s judgement if one employs the OPC method
