Forest Science Program, 2002 The British Columbia Forest Practices Code creates a legal requirement for soil conservation and in particular calls for skid road rehabilitation to restore site productivity site hydrology This report presents the seven year results of a research trial initiated in the Nelson Forest Region in 1985 to test the efficacy of rehabilitation practices by quantifying tree growth on rehabilitated skid roads Sites were planted with lodgepole pine Engelmann spruce or both At eight locations in the Rocky and Purcell mountains total height annual height increment and basal diameter were measured on 1 713 trees ranging in age from six to ten years Comparisons are made between growth of undisturbed trees and those on various locations on the rehabilitated berm Based on the results recommendations are made regarding improvements to skid road rehabilitation      **Logging and Sawmill Operation**, 1972      *USDA Forest Service Experimental Forests and Ranges* Deborah C. public or private agency Some definitions of homelessness include persons living on a short term basis in single room occupancy hotels or motels or temporarily residing in social or health service facilities without a permanent address Housing the Homeless is a collection of case studies that bring together a variety of perspectives to help develop a clear understanding of the homelessness problem The editors include information on the background and politics of the problem and descriptions of the current homeless population The book concludes with a resource section which highlights governmental policies and programs established to deal with the problem of homelessness FSH ,1961 *Timber Sale Administration Handbook* United States.
