Balancing the Big Stuff Miriam Liss, Holly H. Schiffrin, 2014-08-07 While the current conversation about work family balance and having it all tends to focus on women both men and women are harmed when conditions make it impossible to balance meaningful work with family life Yet both will benefit from re evaluating what it means to have it all and fighting for changes in their relationships and society to make greater equality possible Here Miriam Liss and Holly Hollomon Schiffrin discuss the ways in which we all define having it all and how we can obtain it for ourselves through a better evaluation of what we want from ourselves our families our jobs and each other Determining a 50 50 division of labor around the house may not be the thing that works for everyone Working from home or not at all may not be the thing to bring us satisfaction but learning what studies show and how to feel balanced and make those decisions to bring balance is crucial The authors argue that people can find balance in their roles by doing things in moderation Although being engaged in both parenting and work is good for well being people can avoid the pitfalls of over parenting and over working They show that balance can come from a meaningful consideration of what happiness and contentedness mean to us as individuals and how best to achieve our goals within the limitations of our current circumstances They illustrate that balance is not simply an individual problem Social issues such as the lack of parental leave flexible work schedules and affordable high quality child care make balance difficult With attention now on the issue they argue that it s time men and women advocate for better services and better opportunities to achieve balance happiness and success in all their roles **Talent Balancing** Jim Stedt, 2005-12-30

When the economy was booming it was hard to find good people winning the talent war was a popular phrase and those individuals with the right stuff could command hefty salaries and perks When the economy crumbled the headhunters were sent packing Today companies are starting to hire again but instead of recruiting a group of fifty they re hiring five They re outsourcing and hiring temps They re replacing staff due to turnovers retirements and areas that were downsized rather than expanding They re relying on reduced HR departments and in house managers and staff to make critical staffing decisions Surprisingly in this environment good people are hard to find the top performers are staying where they are and it s the weak and marginal performers that make up most of the available talent pool Talent Balancing draws from the author s 35 years in the field to present a fresh and practical approach to recruiting in today s volatile and uncertain environment In particular Talent Balancing will help entrepreneurs and managers without formal recruitment training navigate organizational politics analyze current and future staffing needs and execute a successful plan Whether you are ramping up a new team or department or filling a temporary spot Talent Balancing provides a wealth of insights and tools to ensure that your organization meets both immediate and long term goals *Capital Market Interview Questions and Answers - English*
