have been distilled from the collective experience and wisdom of the authors serving to capture that which underpins effective and efficient connective initiatives Each principle is accompanied by a set of questions that reflect the issues raised and successes illustrated throughout the book It is hoped these principles and questions will serve to guide people interested in developing funding and or participating in future connective initiatives in the fields of science and technology **British Book News** ,1990 Product Design Andy Reid,Chris Ralls,2003 Student workbook designed to teach the subject of Design and Technology as part of the British Key Stage 3 curriculum Suggested level intermediate junior secondary *Australian National Bibliography* ,1996 **Home Economics & Technology** ,1992 *British Book News* British Council,1993 Includes no 53a British wartime books for young people *Curriculum Materials Directory* ,1993 Curriculum materials submitted for display at the Annual Conference of the Association for Supervision and Curriculum Development **The Science Teacher** ,1992 Some issues are accompanied by a CD ROM on a selected topic
