Goldman, 2013-11-20 Many clinicians recognize that denying or ignoring grief issues in children leaves them feeling alone and that acknowledging loss is crucial part of a child s healthy development Really dealing with loss in productive ways however is sometimes easier said than done For decades Life and Loss has been the book clinicians have relied on for a full and nuanced presentation of the many issues with which grieving children grapple as well as an honest exploration of the interrelationship between unresolved grief educational success and responsible citizenry The third edition of Life and Loss brings this exploration firmly into the twenty first century and makes a convincing case that children s grief is no longer restricted only to loss identified children Children s grief is now endemic it is global Life and Loss is not just the book clinicians need to understand grief in the twenty first century it s the book they need to work with it in constructive ways

Integrative Antiracism Edith P. Samuel, 2005-01-01 From both a theoretical and practical standpoint racism is one of the most important topics that has engaged the attention of social scientists in North America in recent years As societies become more ethnically diverse people from different cultures are increasingly coming into contact with each other resulting in ever greater opportunities for racism to manifest itself In this work Edith Samuel examines the educational experiences of South Asian students and faculty members from the perspective of integrative antiracism the study of how the dynamics of social difference are mediated in people s daily lives Specifically she analyses perceptions of and responses to racism in four critical areas faculty student relationships peer group interactions curriculum and the psychosocial dimension Antiracism scholars maintain that racism is widespread on Canadian university campuses Drawing on the available literature and extensive interviews with students and faculty Samuel looks at both overt and covert forms of racism as well as structural racism that results in discrimination in admissions and employment She also looks at race class gender history and culture and how these interlocking systems produce unique experiences of racism for South Asians in academe Through the exploration of the intricate patterns of South Asians assimilation into university life Integrative Antiracism identifies the numerous barriers racial minorities encounter and suggests a variety of approaches to fostering a more equitable education

 Scott, 2007-11-19 *Rethinking Evolution in the Museum* explores the ways diverse natural history museum audiences imagine
 their evolutionary heritage In particular the book considers how the meanings constructed by audiences of museum
 exhibitions are a product of dynamic interplay between museum iconography and powerful images museum visitors bring
 with them to the museum In doing so the book illustrates how the preconceived images held by museum audiences about
 anthropology Africa and the museum itself strongly impact the human origins exhibition experience Although museological
 theory has come increasingly to recognize that museum audiences make meaning in exhibitions or make their own complex
 interpretations of museum exhibitions few scholars have explicitly asked how *Rethinking Evolution in the Museum* however
 provides a rare window into visitor perceptions at four world class museums the Natural History Museum and Horniman
 Museum in London the National Museums of Kenya in Nairobi and the American Museum of Natural History in New York
 Through rigorous and novel mixed methods quantitative and qualitative covering nearly 500 museum visitors this innovative
 study shows that audiences of human origins exhibitions interpret evolution exhibitions through a profoundly complex
 convergence of personal political intellectual emotional and cultural interpretive strategies This book also reveals that
 natural history museum visitors often respond to museum exhibitions similarly because they use common cultural tools
 picked up from globalized popular media circulating outside of the museum One tool of particular interest is the notion that
 human evolution has proceeded linearly from a bestial African prehistory to a civilized European present Despite critical
 growths in anthropological science and museum displays the outdated Victorian progress motif lingers persistently in popular
 media and the popular imagination *Rethinking Evolution in the Museum* sheds light on our relationship with natural history
 museums and will be crucial to those people interested in understanding the connection between the visitor the museum and
 media culture outside of the museum context *The Skin I'm in* Pat Thomas, CMI, 2003-03 Addressing racial discrimination
 this title encourages kids to accept and be comfortable with differences of skin color and other racial characteristics among
 their friends and in themselves Includes a guide for parents with a glossary suggested additional reading and a list of
 resources *Mind the Inclusion Gap* Suzy Levy, 2023-05-11 Diversity programmes are everywhere But despite all the
 intention and focus progress is painfully slow Homophobia transphobia racism and misogyny remain stubbornly pervasive
 and unfortunately many inclusion programmes do more to create negativity toward the diversity agenda than they do to
 bring about measurable and lasting change Why isn't change happening more rapidly What are we doing wrong Or better yet

what should we be doing differently if we want to drive different outcomes Although most of us are curious about diversity and some would go so far as to call ourselves allies very few of us are skilled in inclusion In the absence of knowing what to do we double down on being nice and hope that will be enough Unfortunately this optimistic attitude may harm as much as help This book is for anyone who wants to dive into the complex task of supporting diversity and increasing inclusion It is filled with insight and practical know how It will help you navigate the polarised and divisive issues we face and move beyond just talking about diversity to playing an active role in shaping an inclusive future

Muslims in Prison J. Beckford, D. Joly, F. Khosrokhavar, 2016-01-12 The growth of Islam in Europe is reflected in the increasing numbers of Muslims in British and French prisons but authorities have responded differently to the challenges presented by Muslim prisoners in each country The findings of three years of intensive research in a variety of prisons show that British prisons facilitate and control the practice of Islam whereas French prisons discourage it and thereby sow the seeds of extremism The policy implications of these ironic findings are examined in detail
