Kendi, 2016-04-12 The National Book Award winning history of how racist ideas were created spread and deeply rooted in American society Some Americans insist that we re living in a post racial society But racist thought is not just alive and well in America it is more sophisticated and more insidious than ever And as award winning historian Ibram X Kendi argues racist ideas have a long and lingering history one in which nearly every great American thinker is complicit In this deeply researched and fast moving narrative Kendi chronicles the entire story of anti black racist ideas and their staggering power over the course of American history He uses the life stories of five major American intellectuals to drive this history Puritan minister Cotton Mather Thomas Jefferson abolitionist William Lloyd Garrison W E B Du Bois and legendary activist Angela Davis As Kendi shows racist ideas did not arise from ignorance or hatred They were created to justify and rationalize deeply entrenched discriminatory policies and the nation s racial inequities In shedding light on this history *Stamped from the Beginning* offers us the tools we need to expose racist thinking In the process he gives us reason to hope

Portrait of a Scientific Racist James G. Hollandsworth, Jr., 2008-11 In the years after Reconstruction racial tension soared as many white southerners worried about how to deal with the millions of free African Americans among them an issue they termed the negro problem In an attempt to maintain the status quo white supremacists resurrected old proslavery arguments and sought new justification in scientific theories purporting to prove people of African descent inherently inferior to whites In Portrait of a Scientific Racist James G Hollandsworth Jr reveals how the conjectures of one of the country s most prominent racial theorists Alfred Holt Stone helped justify a repressive racial order that relegated African Americans to the margins of southern society in the early 1900s In this revealing biography Hollandsworth examines the thoughts and motives of this renowned man focusing primarily on Stone s most intensive period of theorizing

from 1900 to 1910 A committed and vocal white supremacist Stone believed black southern workers were inherently lazy a trait he attributed to their African genes and heritage He asserted that slavery helped improve the black race but that opportunities still existed during Reconstruction to mold the freedmen into efficient workers Stone s central yet unspoken goal was to devise a way to maintain an obedient productive labor force willing to work for low wages Writing from both Washington D C and his cotton plantation in the Mississippi Delta Stone published numerous essays and collected more than 3000 articles and pamphlets on the American Race Problem including those written by bitter racists and enthusiastic race boosters Though Stone lacked the credentials typically associated with scholarly experts of the time he became an authority on the subject of black Americans in part because of his close friendship with fellow scientific racist and statistician Walter F Willcox An early member of the American Economic Association and other academic groups Stone went on to serve as head scholar of a division for race studies within the Carnegie Foundation Interestingly Stone recruited W E B Du Bois and Booker T Washington to collaborate with him on a major study for the Foundation continuing his tendency to incorporate all perspectives into his study of race Hollandsworth uses Stone s extensive correspondence with Willcox Du Bois and Washington as well as his personal writings both published and unpublished to reveal the secrets of this misguided yet fascinating figure

Calls and Responses Tim A. Ryan,2008-06-01 In this comprehensive groundbreaking study Tim A Ryan explores how American novelists since World War I have imagined the institution of slavery and the experience of those involved in it Complicating the common assumption that authentic black authored fiction about slavery is starkly opposed to the traditional racist fiction

and history created by whites Ryan suggests that discourses about American slavery are and have always been defined by connections rather than disjunctions Ryan contends that African American writers didn't merely reject and move beyond traditional portrayals of the black past but rather actively engaged in a dynamic dialogue with white authored versions of slavery and existing historiographical debates The result is an ongoing cultural conversation that transcends both racial and disciplinary boundaries and is akin to the call and response style of African American gospel music Ryan addresses in detail more than a dozen major American novels of slavery from the first significant modern fiction about the institution Margaret Mitchell's *Gone with the Wind* and Arna Bontemps's *Black Thunder* both published in 1936 to recent noteworthy novels on the topic Edward P Jones's *The Known World* and Valerie Martin's *Property* both published in 2003 His insistence upon the necessity of interpreting novels about the past directly in relation to specific historical scholarship makes *Calls and Responses* especially compelling He reads Toni Morrison's *Beloved* not in opposition to a monolithic orthodoxy about slavery but in relation to specific arguments of controversial historian Stanley Elkins Similarly he analyzes William Styron's *The Confessions of Nat Turner* in terms of its rhetorical echoes of Frederick Douglass's famous autobiographical narrative Ryan shows throughout *Calls and Responses* how a variety of novelists including Alex Haley Octavia Butler Ishmael Reed Margaret Walker and Frances Gaither engage in a dynamic debate with each other and with such historians as Herbert Aptheker Charles Joyner Eugene and Elizabeth Genovese and many others A substantially new account of the development of American slavery fiction in the last century *Calls and Responses* goes beyond merely exalting the expression of black voices and experiences and actually reconfigures the existing view of the American novel of slavery

**Silent Cavalry** Howell Raines, 2023-12-05 A Pulitzer Prize winning journalist reveals the little known story of the Union soldiers from Alabama who played a decisive role in the Civil War and how they were scrubbed from the history books It is my sincere hope that this compelling and submerged history is integrated into our understanding of our nation and allows us to embrace new heroes of the past Imani Perry professor Harvard University and National Book Award winning author of South to America We all know how the Civil War was won Courageous Yankees triumphed over the South But is there more to the story As Pulitzer Prize winning journalist Howell Raines shows it was not only soldiers from northern states who helped General William Tecumseh Sherman burn Atlanta to the ground but also an unsung regiment of 2 066 Alabamian yeoman farmers including at least one member of Raines s own family Called the First Alabama Cavalry U S A this regiment of mountain Unionists which included sixteen formerly enslaved Black men was the point of the spear that Sherman drove through the heart of the Confederacy The famed general hailed their skills and courage So why don t we know anything about them Silent Cavalry is part epic

American history part family saga and part scholarly detective story Drawing on the lore of his native Alabama and investigative skills honed by six decades in journalism Raines brings to light a conspiracy that sought to undermine the accomplishments of these renegade southerners a key component of the Lost Cause effort to restore glory to white southerners after the war even at the cost of the truth In this important new contribution to our understanding of the Civil War and its legacy Raines tells the thrilling tale of the formation of the First Alabama while exposing the tangled web of how its wartime accomplishments were silenced implicating everyone from a former Confederate general to a gaggle of Lost Cause historians in the Ivy League and a sanctimonious former keeper of the Alabama state archives By reversing the erasure of the First Alabama Silent Cavalry is a testament to the immense power of historians to destroy as well as to redeem

Cotton and Race in the Making of America Gene Dattel, 2009-09-16 Since the earliest days of colonial America the relationship between cotton and the African American experience has been central to the history of the republic America's most serious social tragedy slavery and its legacy spread only where cotton could be grown Both before and after the Civil War blacks were assigned to the cotton fields while a pervasive racial animosity and fear of a black migratory invasion caused white Northerners to contain blacks in the South Gene Dattel's pioneering study explores the historical roots of these most central social issues In telling detail Mr Dattel shows why the vastly underappreciated story of cotton is a key to understanding America's rise to economic power When cotton production exploded to satiate the nineteenth century textile industry's enormous appetite it became the first truly complex global business and thereby a major driving force in U S territorial expansion and sectional economic integration It propelled New York City to commercial preeminence and fostered independent trade between Europe and the United States providing export capital for the new nation to gain its financial sea legs in the world economy Without slave produced cotton the South could never have initiated the Civil War America's bloodiest conflict at home Mr Dattel's skillful historical analysis identifies the commercial forces that cotton unleashed and the pervasive nature of racial antipathy it produced This is a story that has never been told in quite the same way before related here with the authority of a historian with a profound knowledge of the history of international finance With 23 black and white illustrations America, History and Life, 2001 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide
