Dost-Gozkan, 2017-07-05 This book is about the life and work of a Turkish American social scientist Muzafer Sherif 1905-1988 He was known for his seminal work on norm and group formations social judgment and intergroup conflicts and cooperation Although Sherif is identified as one of the founders of social psychology his contribution to the science of psychology goes beyond the limits of social psychology as it is generally defined today This volume aims to rediscover the theory and research of its subject in the socio historical context of his time as well as his relevance for contemporary psychology Chapters cover a range of topics an in depth portrayal of Sherif s life and intellectual struggle in Turkey and in the United States his metatheoretical considerations on the science of psychology his theory and research on group and intergroup relationships social norms and social change formation and change of frames of reference ego involvements and identity and psychology of slogans Sherif had profound life experiences in different cultural contexts from the Ottoman Empire and World War I to American universities which enabled him to see the essentiality of the historico cultural context in the formation of human phenomena Sherif s psychology is an elegant exemplar of an integrative science of psychology that is worth rediscovering

Leonard Covello and the Making of Benjamin Franklin High School Michael C. Johanek, John L. Puckett, 2007 What is the mission of American public education As a nation are we still committed to educating students to be both workers and citizens as we have long proclaimed or have we lost sight of the second goal of encouraging students to be contributing members of a democratic society In this enlightening book John Puckett and Michael Johanek describe one of America s most notable experiments in community education In the process they offer a richly contextualized history of twentieth century efforts to educate students as community minded citizens Although student test scores now serve to measure schools achievements the authors argue compellingly that the democratic goals of citizen centered community schools can be reconciled with the academic performance demands of contemporary school reform movements Using the twenty year history of community centered schooling at Benjamin Franklin High School in East Harlem as a case study and reminding us of the pioneering vision of its founder Leonard Covello they suggest new approaches for educating today s students to be better public citizens **Relative Deprivation** Iain Walker, Heather J. Smith, 2002 The relative deprivation construct has been widely used in the social sciences to explain phenomena from experiencing psychosomatic stress to participating in

urban riots It is currently a valuable tool in research being used especially to understand processes of social identity and responses to disadvantage by both disadvantaged minorities and privileged majorities Originally published in 2001 this book assembles chapters by leading relative deprivation researchers in order to present comprehensive synthesis of knowledge Featuring integrative theoretical and empirical work from social psychology sociology and psychology the book provides a highly detailed reference work It is relevant to researchers in intergroup relations prejudice racism social identity group processes social comparison collective behavior and social movements The book will be of value to anyone with an interest in the topic and its practical application Certainty-uncertainty - and the Attitudinal Space in Between Sibilla

Cantarini,Werner Abraham,Elisabeth Leiss,2014-11-15 The selected papers of this volume cover five main topics namely Certainty The conceptual differential Un Certainty as attitudinality Dialogical exchange and speech acts Onomasiology and Applications in exegesis and religious discourse By examining the general theme of the communication of certainty and uncertainty from different scientific fields theoretical approaches and perspectives this compendium of state of the art research papers provides both an interdisciplinary comparison of the latest investigations methods and findings and new advances and theoretical insights with a common focus on human communication **The Oxford Handbook of Diversity**

and Work Quinetta M. Roberson,2013-01-31 Greater workforce diversity and business trends make the management of such diversity an important challenge for organizational leaders The Oxford Handbook of Diversity and Work offers a comprehensive review of current theory and research and stimulates thoughtful and provocative conversation about future study of diversity in the workplace Attitude Strength Richard E. Petty,Jon A. Krosnick,2014-01-14 Social psychologists have long recognized the possibility that attitudes might differ from one another in terms of their strength but only recently had the profound implications of this view been explored Yet because investigators in the area were pursuing interesting but independent programs of research exploring different aspects of strength there was little articulation of assumptions underlying the work and little effort to establish a common research agenda The goals of this book are to highlight these assumptions to review the discoveries this work has produced and to suggest directions for future work in the area The chapter authors include individuals who have made significant contributions to the published literature and represent a diversity of perspectives on the topic In addition to providing an overview of the broad area of attitude strength particular chapters deal in depth with specific features of attitudes related to strength and integrate the diverse bodies of relevant theory and empirical evidence The book will be of interest to graduate students initiating work on attitudes as well as to longstanding scholars in the field Because of the many potential directions for application of work on attitude strength to amelioration of social problems the book will be valuable to scholars in various applied disciplines such as political science marketing sociology public opinion and others studying attitudinal phenomena **Why We Evaluate** Gregory R.

Maio,James M. Olson,1999-11 This edited volume offers engaging summaries on the latest research on attitude function from

the leaders in the field Topics include attitude functions persuasion individual differences approaches the role of motivation and the practical implication

Forced Migration in the History of 20th Century Neuroscience and Psychiatry Frank W. Stahnisch, Gül A. Russell, 2017-09-18 The forced migration of neuroscientists both during and after the Second World War is of growing interest to international scholars Of particular interest is how the long term migration of scientists and physicians has affected both the academic migrants and their receiving environments As well as the clash between two different traditions and systems this migration forced scientists and physicians to confront foreign institutional political and cultural frameworks when trying to establish their own ways of knowledge generation systems of logic and cultural mentalities The twentieth century has been called the century of war and forced migration since it witnessed two devastating world wars prompting a massive exodus that included many neuroscientists and psychiatrists Fascism in Italy and Spain beginning in the 1920s Nazism in Germany and Austria between the 1930s and 1940s and the impact of the Soviet occupation of Eastern Europe all forced more than two thousand researchers with prior education in neurology psychiatry and the basic brain research disciplines to leave their scientific and academic home institutions This edited volume comprising of thirteen chapters written by international specialists reflects on the complex dimensions of intellectual migration in the neurosciences and illustrates them by using relevant case studies biographies and surveys This book was originally published as a special issue of the Journal of the History of the Neurosciences
