Social Life In School:

Social Life in School Peter Blatchford, 2012-10-02 Are breaktimes really just a time of violence and bullying that could be better used for working Based on a unique and fascinating longitudinal study of a group of pupils from primary to secondary school the author of this timely new book proposes an alternative view He believes that breaktime plays an important part in children s social development and through his gathering of pupil s own views on breaktimes over a period of ten years we see how breaktimes offer children time to play to develop friendships to build social networks to develop social skills and competence to be independent from adults and to learn to manage conflict aggression and inter group relations Where else will they learn these important skills if not in the playground What will happen in a society where these skills are not developed

School as a community Hans Passenier, 2024-02-08 In search of leadership in Waldorf schools Leadership in Waldorf schools has a specific history Whereas 40 years ago it was hardly allowed to formally exist because it represented power and hierarchy now it is commonplace to have a headmaster rector or director In this book Hans Passenier examines the development of leadership and organisation in Waldorf schools He starts at the origins and finds principles that can help develop school organisations and their leadership in the future In four parts he unfolds the foundations the tools to develop leadership and organisations and finally describes exercises to support that development as a school community His thesis is that education is about children being diverse having different abilities Also that the educator should not be a carpenter but a gardener The image of the school as an organism is guiding in which the school community is a place for the inner development of each individual in that school community The horizontal and vertical dimensions guide the view of both leadership and organisational design
