health care reform types of sexual harassment immigration problems and physician assisted suicide Unlike other social problems texts a major focus of this book is to present proposals and programs that have been advanced to attempt to alleviate each of the social problems reviewed This text is organized to cover material in this sequence first deviances and social variations experienced by individuals then inequality problems experienced by certain groups next problems of troubled institutions and finally problems of the changing world This progression from individual problems to more complex problems assists the reader in grasping and understanding increasingly complex material

**Contemporary Readings in Social Problems** Anna Leon-Guerrero,2008-11-21 Companion reader to Anna Leon Guerrero s Social Problems 2nd Edition

Social Problems Donileen R. Loseke,Joel Best,2017 This collection of focused essays is directed at several levels of students of social problems It is accessible to the uninitiated who are not familiar with the constructionist literature and aimed at those who are not particularly interested in subtle theoretical and empirical issues of concern to academics studying social problems from constructionist perspectives Some readings focus on the construction of problems by scientists and other professionals others examine the work of social activists mass media and social service personnel Among the topics included are studies of social inequalities and individual deviance a comparison of the images of social problems in the United States with those in other countries and an examination of the importance of politics and power in constructing public images of social problems Constructionist perspectives have become the leading theoretical approach for sociology and allied fields in studying social problems Yet constructionists impact on the teaching of social problems has been far less dramatic Undergraduate courses on social problems are often subject to a theoretical barrage of eclectic perspectives Just as the first social problems textbooks did almost a century ago textbooks continue to present a series of unrelated chapters each devoted to a particular social problem Social Problems is an effort at systematic analysis rather than random thought on the subject Social Problems presents detailed case studies demonstrating how constructionist perspectives can actually be applied to understand particular social problems While these articles can be read alone the editors have organized these selections to correspond with the chapter topics in the second edition of Donileen Loseke s Thinking about Social Problems an accessible introduction to constructionist approaches At the same time some instructors who use this edited collection might wish to provide their own mix to the selection process Many of the contributions make multiple points and so reasonably could be used to illustrate other basic texts or classic studies in the field of social problems Donileen R Loseke is professor of sociology at the University of South Florida Joel Best is professor and chair Department of Sociology and Criminal Justice University of Delaware He has also served as an advisory editor for Aldine in the area of social problems

**Social Problems** James M. Henslin,Lori Ann Fowler,2009-08 **Social Problems** William Kornblum,Joseph Julian,2003 With historical and multicultural sensitivity this best selling book probes the nature and causes of the major social changes confronting today s citizens Using the latest research current statistics examples charts and tables it delves into the social

control and action issues inherent to each problem in a clear easy to read format Balancing viewpoints and supporting material with research and policy the book covers topics in a micro to macro format pointing out the interrelationships among today s social problems and approaching them from several perspectives The first few chapters focus on individual behaviors such as drug use and crime The middle chapters deal with inequality and discrimination discussing such topics as poverty prejudice sexism ageism family life and work The final chapters discuss the problems of cities environmental pollution and war and terrorism matters of global significance Because the nature of the United States is changing with health and health care crises military invasions economic downturn shrinking public budgets and rising fiscal deficits and environmental issues this book becomes a necessary read for members of the medical profession that confront the tragedy of AIDS law enforcement professionals who cope with crime and violence elected officials and other political leaders who are expected to formulate sound social policies to address social problems and citizens who wish to learn more about the social problems that are pervasive in our lives

**Social Problems in Global Perspective** Ronald M. Glassman, William H. Swatos, Jr., Barbara J. Denison, 2004-11 The global high tech economy has generated a technological and scientific productive miracle But along with the miracle has come problems This important book provides a detailed account of some of these problems
