Social Structure and Personality Yehudi A. Cohen, 1961 Collection of papers including paper by W Lloyd Warner separately annotated **Social Structure and Personality** Yehudi Aryeh Cohen, 1964 Social Structure and Personality Yehudi A. Cohen, 1964 **The Ways of Friendship** Amit Desai, Evan Killick, 2010-08-01 Friendship is an essential part of human experience involving ideas of love and morality as well as material and pragmatic concerns Making and having friends is a central aspect of everyday life in all human societies Yet friendship is often considered of secondary significance in comparison to domains such as kinship economics and politics How important are friends in different cultural contexts What would a study of society viewed through the lens of friendship look like Does friendship affect the shape of society as much as society moulds friendship Drawing on long term ethnographic fieldwork in Asia the Middle East Africa Latin America and Europe this volume offers answers to these questions and examines the ideology and practice of friendship as it is embedded in wider social contexts and transformations Family Studies Anuja Agrawal, 2024-10-31 Within the social political and economic contexts existing in modern day India family is neither a simple remnant of tradition nor a domain merely representing insulated private lives Rather it is implicated in malleable yet overpowering structures relationships and practices If the family is a crucial site of ideological and imaginative investments playing a critical role in reproducing and defining contemporary selves and societies families are responsive to and constrained by the complex dynamics in which they are enmeshed Family relationships remain fundamental to survival and security even as policy and legislative imperatives as well as reproductive and communication technologies play a crucial role in reshaping them Critically interrogating the extant approaches to and concepts within the study of family Family Studies brings together diverse contributions by scholars from varied backgrounds to focus upon issues central to the conceptualization of family and their implications for Indian society The chapters in this volume make a strong case for why family as an ideological construct and families as a multitude of lived relationships should continue to be subjects of critical social scientific attention **A Pattern Language** Christopher Alexander, Sara Ishikawa, Murray Silverstein, 1977 Two hundred and fifty three archetypal patterns consisting of problem statements discussions illustrations and solutions provide lay persons with a framework for engaging in architectural design *Friendship in the Classical World* David Konstan, 1997-02-06 An examination of the nature of friendship in Greece and Rome from Homer to the Christian Roman Empire of fourth century AD *Anthropology* Raymond Scupin, Christopher R. DeCorse, 2019-12-20 Now with SAGE Publishing Using state of the art research Anthropology A Global Perspective introduces students to the four core subfields of anthropology and applied anthropology Integrating material from each subfield this comprehensive text is founded on four essential themes the diversity of human societies the similarities that tie all humans together the interconnections between the sciences and humanities and a new theme addressing psychological essentialism Authors Raymond Scupin and Christopher R DeCorse demonstrate how anthropologists use research techniques

and methods to help solve practical problems and show students how anthropology is relevant to improving human societies This supportive textbook is grounded in the belief that an enhanced global awareness is essential for people preparing to take their place in the fast paced interconnected world of the twenty first century The extensively revised Ninth Edition includes a new chapter on gender and sexuality features a dramatically new look with new photos and figures and has been updated to reflect the most recent findings in the field This title is accompanied by a complete teaching and learning package

Spindler, 2023-11-10 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1978 Semiotics

and Communication Wendy Leeds-Hurwitz, 1993-08-01 Communication is among other things about the study of meaning how people convey ideas for themselves and to one another in their daily lives Designed to close the gap between what we are able to do as social actors and what we are able to describe as social analysts this book introduces the language of semiotics a language that provides

Legal Systems and Incest Taboos John R. Commons, Yehudi A. Cohen, 2017-07-12 The goal of this book is to investigate why there are two distinct notions of liability in the legal and ethical systems of different societies the relationship between two sets of criteria of liability and the individual's evolution from childhood adolescence The specific ways in which different societies cope with the transition from childhood to adolescence are important because a sense of responsibility consonant with the goals of the society and survival of family and culture is implanted in the growing child The ways in which incest taboos are taught constitute one of the crucial modes by which a sense of responsibility is implanted within an individual during his transition from childhood to adolescence The author places most of his focus on social systems the transition from childhood to adolescence Theoretical concerns are with the ways in which human biology and human social structures impact each other The fact that wide variations do exist among societies in connection with certain types of incest taboos does not lead inevitably to the conclusion that there is no biological basis for the incest taboo The immediate impression of variability can be misleading extreme differences between cultures in the same institutional realm as between individuals often reveals remarkable regularity and consistency These regularities are seen in the cultural phenomena the assumption that biology and culture are bound up in their manifestations is fundamental in understanding their nature

Friendship Reconsidered P. E. Digeser, 2016-09-06 In the history of Western thought friendship's relationship to politics is checkered Friendship was seen as key to understanding political life in the ancient world but it was then ignored for centuries Today friendship has again become a desirable framework for political interaction In Friendship Reconsidered P E Digeser contends that our rich and varied practices of friendship multiply and moderate connections to politics Along the way she sets forth a series of ideals that appreciates friendship's

many forms and its dynamic relationship to individuality citizenship political and legal institutions and international relations Digeser argues that as a set of practices bearing a family resemblance to one another friendship calls our attention to the importance of norms of friendly action and the mutual recognition of motive Focusing on these attributes clarifies the place of self interest and duty in friendship and points to its compatibility with the pursuit of individuality She shows how friendship can provide islands of stability in a sea of citizen strangers and in a delegitimized political environment a bridge between differences She also explores how political and legal institutions can both undermine and promote friendship Digeser then looks to the positive potential of international friendships in which states mutually strive to protect the just character of one another s institutions and policies Friendship s repertoire of motives and manifestations complicates its relationship to politics Digeser concludes but it can help us realize the limits and possibilities for generating new opportunities for cooperation

Fei Xiaotong and Sociology in Revolutionary China R. David Arkush,2020-03-17 This biographical study of one of China s leading social scientists follows his life history and includes a bibliography of his books and articles Trained in London under Malinowski Fei Xiaotong achieved eminence in the 1930s and 1940s for his pioneering studies of Chinese peasant life and for his popular articles which stirred a wide audience in China to an awareness of social and political problems A non Marxist who came to sympathize with the Communists Fei was gradually constrained in his activities after the Revolution until in the 1950s a massive propaganda campaign vilified him as a bourgeois rightist intellectual Almost twenty years of silence and disgrace followed Following the death of Mao Fei suddenly reemerged as a leader in the effort to revitalize the social sciences in China The story of Fei s life told here is in a sense the story of Westernized intellectuals in China at a time of peasant revolution His writings enunciate the views of a sensitive observer of Chinese and Western society during that period of dramatic change

Intimate Strangers Vanessa Smith,2010-10-28 When Louis Antoine de Bougainville reached Tahiti in 1768 he was struck by the way in which All these people came crying out tayo which means friend and gave a thousand signs of friendship they all asked nails and ear rings of us Reading the archive of early contact in Oceania against European traditions of thinking about intimacy and exchange Vanessa Smith illuminates the traditions and desires that led Bougainville and other European voyagers to believe that the first word they heard in the Pacific was the word for friend Her book encompasses forty years of encounters from the arrival of the Dolphin in Tahiti in June 1767 through Cook s and Bligh s voyages to early missionary and beachcomber settlement in the Marquesas It unpacks both the political and emotional significances of ideas of friendship for late eighteenth century European and particularly British explorations of Oceania

'Ungainefull Arte' Richard A. McCabe, 2016-02-05 From antiquity to the Renaissance the pursuit of patronage was central to the literary career yet relationships between poets and patrons were commonly conflicted if not antagonistic necessitating compromise even as they proffered stability and status Was it just a matter of speaking lies to power The present study looks beyond the rhetoric of dedication to examine how traditional modes of literary patronage responded to the challenge of print as the economies of gift exchange were forced to compete with those of the marketplace It demonstrates how awareness of such divergent milieux prompted innovative modes of authorial self representation inspired or frustrated the desire for laureation and promoted the remarkable self reflexivity of Early Modern verse By setting English Literature from Caxton to Jonson in the context of the most influential Classical and Italian exemplars it affords a wide comparative context for the reassessment of patronage both as a social practice and a literary theme
