Social Theory Deconstructed Religion Between Developmental And Authenticity Schools:

The Bloomsbury Handbook of Schools and Religion Jo Fraser-Pearce, James W. Fraser, 2023-09-21 The Bloomsbury Handbook of Schools and Religion provides the first truly global scan of contemporary issues and debates around the world regarding the relationships between the state schools and religion Organized around specific contested issues from whether or not mindfulness should be practised in schools to appropriate and inappropriate religious attire in schools to long term battles about evolution sexuality and race to public funding Fraser Pearce and Fraser carefully curate chapters by leading experts exploring these matters and others in a diverse range of national settings The Bloomsbury Handbook of Schools and Religion offers a refreshingly new international perspective

Resources in Education ,2001 **Religion in the Primary School** Peter Hemming, 2015-02-20 Religion and its relationship to schooling is an issue that has become more and more topical in recent years In many countries developments such as the diversification of state school sectors concerns about social cohesion between ethnic and religious groups and debates about national identity and values have raised old and new questions about the role of religion in education Whilst the significance of this issue has been reflected in renewed interest from the academic community much of this work has continued to be based around theoretical or pedagogical debates and stances rather than evidence based empirical research This book aims to address this gap by exploring the social and political role of religion in the context of the primary school Drawing on original ethnographic research with a child centred orientation comparisons are drawn between Community and Roman Catholic primary schools situated within a multi faith urban area in the UK In doing so the study explores a number of ways in which religion has the potential to contribute to everyday school life including through school ethos and values inter pupil relations community cohesion and social identity and difference At the centre of the analysis are two key sociological debates about the significance of religion in late modern societies The first is concerned with the place of religion in public life and the influence of secularisation and post secularism on the relationship between religion and schooling The second relates to the increasingly multi faith nature of many national populations and the implications for religious citizenship in educational settings Religion in the Primary School will be a useful resource for academics researchers and students as a key addition to existing knowledge in the disciplines of education sociology and human geography It will also be of value to both policy makers and educationalists interested in the role of religion in schools and the implications for the wider community and society in a range of national contexts

Cultural Analysis Robert Wuthnow, James Davison Hunter, Albert J. Bergesen, Edith Kurzweil, 2013-01-11 First published in 1984 Cultural Analysis is a systematic examination of the theories of culture contained in the writings of four contemporary social theorists Peter L Berger Mary Douglas Michel Foucault and Jürgen Habermas This study of their work clarifies their contributions to the analysis of culture and shows the converging assumptions that the authors believe are laying the foundation for a new approach to the study of culture The focus is specifically on culture a concept that remains subject to

ambiguities of treatment and concentrates on questions concerning the definition and content of culture its construction its relations with social conditions and the manner in which it may be changing The books demonstrates how these writers have made strides towards defining culture as an objective element of social interaction which can be subjected to critical investigation

Sociological Abstracts Leo P. Chall,2004 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers

New Voices in Greek Orthodox Thought Trine Stauning Willert,2016-05-13 *New Voices in Greek Orthodox Thought* brings to the light and discusses a strand in contemporary Greek public debate that is often overlooked namely progressive religious actors of a western orientation International and Greek media tend to focus on the extreme views and to categorise positions in the public debate along well known dichotomies such as traditionalists vs modernisers Demonstrating that in late modernity parallel to rising nationalisms there is a shift towards religious communities becoming the central axis for cultural organization and progressive thinking the book presents Greece as a case study based on empirical field data from contemporary theology and religious education and makes a unique contribution to ongoing debates about the public role of religion in contemporary Europe
