Social Thought In Tsarist Russia The Quest For A General Science Of Society 1861 1917:

Social Thought in Tsarist Russia Alexander Vucinich, 1976 *Reformulating Russia* Kåre Johan Mjør, 2011-05-06

Reformulating Russia provides a thorough narratological and contextual analysis of Russian migr historiography as it appears in Georgii Fedotov's Saints of Ancient Russia Georgii Florovskii's The Ways of Russian Theology Nikolai Berdiaev's The Russian Idea and Vasilii Zenkovskii's History of Russian Philosophy **Red Star** Alexander Bogdanov, 2018-11-01

An Earth man's journey to the planet Mars where he is treated to a wondrous vision of a communist future complete with flying cars and 3D color movies Wonders Marvels A communist society on Mars the Russian revolution and class struggle on two planets is the subject of this arresting science fiction novel by Alexander Bogdanov 1873 1928 one of the early organizers and prophets of the Russian Bolshevik party The red star is Mars but it is also the dream set to paper of the society that could emerge on earth after the dual victory of the socialist and scientific technical revolutions While portraying a harmonious and rational socialist society Bogdanov sketches out the problems that will face industrialized nations whether socialist or capitalist A surprisingly moving story The New Yorker The contemporary reader will marvel at Bogdanov's foresight nuclear fusion and propulsion atomic weaponry and fallout computers blood transfusions and almost unisexuality Choice Bogdanov's novels reveal a great deal about their fascinating author about his time and ironically ours and about the genre of utopia as well as his contribution to it Slavic Review *The History of Public Health and the Modern State*, 2020-06-22

Since George Rosen's comprehensive History of Public Health first published in 1956 there has been no internationally comparative survey of the subject Over the past three decades or so however research in this field has expanded rapidly especially with regard to the history of disease and social order and public health politics and the state Most of these studies have been highly scholarly and specialised and often dealing with only one aspect of public health in any one national context The essays here examine the road history of public health in different national contexts in order to provide a work of comparative reference that could be used as a teaching aid The book focuses on whether the construction of a public health system is an inherent characteristic of the managerial function of modern political systems Thus each essay traces the steps leading to the growth of health government in various nations examining the specific conflicts and contradictions which each incurred As a result the volume highlights the need for further comparative analysis of public health systems as a highly fruitful topic for future study *Sociology and Empire* George Steinmetz, 2013-06-19

The contributors to this comprehensive anthology critique sociology's disciplinary engagement with colonialism in varied settings while also highlighting the field's significant contributions to the theory and history of imperialism **Europe and Its Others** Paul Gifford, Tessa Hauswedell, 2010

The essays represent a selection of papers delivered at an international conference held under the title Europe and its Others Interperceptions Past Present Future at St Andrews University in June 2007 under the aegis of the Institute for European Cultural Identity Studies Introd **Nineteen Eighty-Four: Science Between Utopia and Dystopia** E. Mendelsohn, H.

Nowotny,2012-12-06 Just fifty years ago Julian Huxley the biologist grandson of Thomas Henry Huxley published a book which easily could be seen to represent the prevailing outlook among young scientists of the day *If I were a Dictator* 1934 The outlook is optimistic the tone playfully rational the intent clear allow science a free hand and through rational planning it could bring order out of the surrounding social chaos He complained however At the moment science is for most part either an intellectual luxury or the paid servant of capitalist industry or the nationalist state When it and its results cannot be fitted into the existing framework it and they are ignored and furthermore the structure of scientific research is grossly lopsided with over emphasis on some kinds of science and partial or entire neglect of others pp 83 84 All this the scientist dictator would set right A new era of scientific humanism would provide alternative visions to the traditional religions with their Gods and the civic religions such as Nazism and fascism Science in Huxley's version carries in it the twin impulses of the utopian imagination Power and Order Of course it was exactly this vision of science which led that other grand son of Thomas Henry Huxley the writer Aldous Huxley to portray scientific discovery as potentially subversive and scientific practice as ultimately enslaving

Russian Historiography from 1880 to 1905 Thomas M. Bohn,2024-06-01 In Russian historiography the Moscow School's paradigm shift from political and legal history to social and economic history was markedly driven by Pavel Miliukov 1859 1943 the late leader of the Constitutional Democrats and foreign minister of the Provisional Government *Russian Historiography from 1880 to 1905* develops a narrative of historical sociology's advancement through the Moscow School under Miliukov's influence and provides a window into his decision making as a political figure who based his leadership not on public opinion but on the effectiveness of historical processes

Stalinism and the Politics of Mobilization David Priestland,2007-02-01 *Stalinism and the Politics of Mobilization* offers a new interpretation of Bolshevik ideology examines its relationship with Soviet politics between 1917 and 1939 and sheds new light on the origins of the political violence of the late 1930s While it challenges older views that the Stalinist system and the Terror were the product of a coherent Marxist Leninist blueprint imposed by a group of committed ideologues it argues that ideas mattered in Bolshevik politics and that there are strong continuities between the politics of the revolutionary period and those of the 1930s By exploring divisions within the party over several issues including class the relations between elites and masses and economic policy David Priestland shows how a number of ideological trends emerged within Bolshevik politics and how they were related to political and economic interests and strategies He also argues that central to the launching of the Terror was the leadership's commitment to a strategy of mobilization and to a view of politics that ultimately derived from the left

Poole,2010-04-22 The great age of Russian philosophy spans the century between 1830 and 1930 from the famous Slavophile Westernizer controversy of the 1830s and 1840s through the Silver Age of Russian culture at the beginning of the twentieth century to the formation of a Russian philosophical emigration in the wake of the Russian Revolution This volume is a major history and interpretation of Russian philosophy in this period Eighteen chapters plus a substantial introduction and afterword discuss Russian philosophy s main figures schools and controversies while simultaneously pursuing a common central theme the development of a distinctive Russian tradition of philosophical humanism focused on the defence of human

dignity As this volume shows the century long debate over the meaning and grounds of human dignity freedom and the just society involved thinkers of all backgrounds and positions transcending easy classification as religious or secular The debate still resonates strongly today **The Frankfurt School** ,2011 Originally published New York Wiley c1977 The Frankfurt School Zoltan Tarr,2017-07-12 The Frankfurt School refers to a school of neo Marxist interdisciplinary social theory particular established at the Institute for Social Research at the University of Frankfurt Germany in 1923 Tarr s investigation focuses on three key issues The first is the Frankfurt School s original program of providing a general theory of modern capitalist society The second is the claim to represent a continuation of the original Marxian theory through the school s Critical Theory The third is the scientific validity of Critical Theory in light of the generally accepted canons of the natural and social sciences Tarr proposes that in the last analysis Critical Theory is simply another existentialist philosophy As such it is a specific expression of certain socio historical conditions and of the situation of a particular social group the marginal Jewish bourgeois intelligentsia of Central Europe This European Jewish contribution became apparent after the great metaphysical impulse of the pre Socratic and Platonic Aristotelian philosophies had run their respective courses Both philosophies represented philosophical schools of ethics and both wanted to help man take up a defense against the storms of passions and fate It was from these ancient sources that the Frankfurt School emerged The Frankfurt School derived its impetus in the twentieth century in which Tarr claims a shift occurred from the ontological to the subjective realm This in turn led to deep changes in philosophical theory and practice which led to a more psychologically oriented mode of social thought This in depth study covers the entire career of the Frankfurt School s Critical Theory from 1923 to 1974 It does so by applying the same standards of criticism to its primary doctrines as it turned on other theories but with a keen sense of balance and fairness
