Social Psychology Of War And Peace:

A Social Psychology of War and Peace Mark Arthur May, Yale University. Institute of Human Relations, 1943 **A Social Psychology of War and Peace. By Mark A. May. (Second printing.).** Yale University. Institute of Human Relations, Mark Arthur MAY, 1944 **A Social Psychology of War and Peace** Mark A. May, 1942 **A Social Psychology of War and Peace** ,1944 **The Psychology of War and Peace** Fred Van Houten, 2014-01-15 **The Oxford Handbook of Social Psychology and Social Justice** Phillip L. Hammack, 2018-02-15

The twentieth century witnessed not only the devastation of war conflict and injustice on a massive scale but it also saw the emergence of social psychology as a discipline committed to addressing these and other social problems In the 21st century however the promise of social psychology remains incomplete We have witnessed the reprise of authoritarianism and the endurance of institutionalized forms of oppression such as sexism racism and heterosexism across the globe Edited by Phillip L Hammack The Oxford Handbook of Social Psychology and Social Justice reorients social psychology toward the study of social injustice in real world settings The volume s contributing authors effectively span the borders between cultures and disciplines to better highlight new and emerging critical paradigms that interrogate the very real consequences of social injustice United in their belief in the possibility of liberation from oppression with this Handbook Hammack and his contributors offer a stirring blueprint for a new important kind of social psychology today

War Narratives in Post-Conflict Societies Michal Mochtak, 2024-02-29

This book studies war narratives and their role in the political arenas of post conflict societies with a focus on the former Yugoslavia How do politicians in postwar societies talk about the past war How do they discursively represent vulnerable social groups created by the conflict Does the nature of this representation depend on the politicians ideology personal characteristics or their record of combat service The book answers these questions by pairing natural language processing tools and large corpora of parliamentary debates collected in three southeast European post conflict societies Bosnia Herzegovina Croatia and Serbia Using the latest advances in computer science the book explores patterns in the war discourse of the political elites of these countries and discusses how politicians talk about war in terms of common narratives and shared frameworks Mapping over 20 years of parliamentary debates the book presents a new perspective on the role of the legacies of war in public space and develops theoretical arguments about reconciliation in post conflict societies The wars of the 1990s and the breakup of Yugoslavia have created three totally different settings for remembering the past conflicts in these countries despite their common history It is a story of victorious battles Croatia past grievances Bosnia Herzegovina and denial Serbia showing the different flavors of past wars in various national contexts that are symptomatic of many post conflict societies in different parts of the world This book will be of much interest to students of war and conflict studies southeastern European politics discourse analysis and international relations

Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University Hoover Institution on War, Revolution, and Peace, 1969 **The Psychology of War and Peace** Fred van Houten, 2013-06-29 Can a Baby Be an Enemy Our world is in a deep prolonged crisis The threat of global nuclear war the chronic condition of local wars the imperilled environment and mass starvation are among the major forms this crisis takes The dangers of massive overkill overexploitation of the environment and overpopulation are well known but surprisingly little has been said about their potential interactions their bearing upon each other If there were to be a nuclear confrontation between today's superpowers it might not take place in today's world but in a far less friendly habitat such as the world may be some decades hence And it need hardly be added that the era of this particular super power configuration may be waning rapidly its place to be taken by other international arrangements not necessarily less threatening To understand and cope with our situation we need correspondingly serious reflection This volume forms a welcome part of that process Unavoidably a large part of our thinking about the issues of human survival must be oriented to physical and biological aspects of the total danger But it has not escaped the authors of this book that coupled with these aspects there are profound psychological dangers such as loss of the sense of futuristic moral deterioration and a fatalistic decline in the will to struggle to protect our home the Earth

Psychology of Non-violence and Aggression V.K. Kool, 2007-11-27 Kool draws on recent research to illustrate that whilst the control of violence is a reaction to aggression nonviolence is by contrast an active behaviour The book explores a wide survey of theories and examples spanning ideas in cognition motivation and behaviour that will provide students with an engaging entry point to the subject *The Cambridge Handbook of Social Representations* Gordon Sammut, Eleni Andreouli, George Gaskell, Jaan Valsiner, 2015-05-25 This Handbook provides the requisite theoretical and methodological guidelines for undertaking social research addressing relevant contemporary social issues **Representations of Peace and Conflict** S. Gibson, S. Mollan, 2016-01-18 This edited volume brings together a series of contributions exploring the socio cultural and psychological representation of peace and conflict It ventures into areas of the humanities and social sciences not typically foregrounded in Peace Studies such as psychology sociology media studies cultural studies history and geography

War & Peace, 1915 *War, Peace, and Human Nature* Douglas P. Fry, 2015-02 The chapters in this book posit that humans clearly have the capacity to make war but since war is absent in some cultures it cannot be viewed as a human universal And counter to frequent presumption the actual archaeological record reveals the recent emergence of war It does not typify the ancestral type of human society the nomadic forager band and contrary to widespread assumptions there is little support for the idea that war is ancient or an evolved adaptation Views of human nature as inherently warlike stem not from the facts but from cultural views embedded in Western thinking Amazon.com [The Public Papers of Woodrow Wilson: War and peace : presidential messages, addresses, and public papers \(1917-1924\)](#) Woodrow Wilson, 1927 *Invitation to Peace Studies* Houston Wood, 2015-06-02 Invitation to Peace Studies is the first textbook in the field to emphasize 21st

century topics and the latest empirical research as well as the first to prominently apply a gender perspective to the topics of peace war and violence The book covers traditional peace studies concerns with interstate wars while offering an equal emphasis on intrastate wars group and gender based violence and on the many nonviolent movements which have shaped recent world history Clear and accessible language invites students to become more frequent and effective peace promoters in their own everyday lives Dozens of case studies and textboxes foreground contemporary topics such as climate change cyber warfare digital activism drones and robots the occupy movement peace ecology positive psychology religion and violence and terrorism
