

Thompson (2000) argues, in the book *Understanding social work*, that skill development in social work education tends to involve two main elements:
 1 – Building on, consolidating, enhancing and sharpening existing skills
 2 – Recognizing, understanding and developing new skills

According the distinction made by this author can be identified the following 5 basic competences and 15 skills (see Tab.2 and annex 2):

As Oded Manor (2004:290) comments, in the *Blackwell Encyclopedia of Social Work*, the relationship skills are the observable behaviours to which workers resort while forming, sustaining, and terminating the working alliance with clients and others involved.

Exercising these skills is necessary for promoting the process of bonding, among, those involved in a collaborative working, alliance. These skills can be learned, and include:

- Listening actively
- Conveying respect
- Communicating empathy
- Expressing oneself genuinely
- Being specific
- Sharing one's own feelings

As we have seen, social work's competences and skills are in permanent dialogue, and will not be separately analysed from the daily practice of those who operates in agencies with administrations, other professionals, teams, social partners, communities and users. In the approach of empowerment, advocacy, social mediation, partnership or other, the communication competences seems to be the crucial one, which adequate using in and with different context and persons allows the human and social development in respect for the values of citizenship and quality of services provided.

Literature instructors have long used fiction to teach composition. But because the novel reflects a broad range of human experiences and historical events, it is the ideal medium for learning about contemporary social issues. This book helps educators learn how to use the novel in courses in English, the humanities, social and behavioral sciences, and professional studies. The book is divided into broad sections on general education classes, multiculturalism, literature classes, humanities courses, classes in social, behavioral, and political sciences, and professional studies such as social work and teacher training. Each section includes chapters written by gifted teachers and provides a wealth of theoretical and practical information. While the book examines major canonical works such as *Hard Times*, *Billy Budd*, and *Invisible Man*, it also looks at graphic novels, science fiction, and popular contemporary works such as *Finishing School* and *Jarhead*. Chapters reflect the personal successes of their authors and cite works for further reading.
