**Railroad Brakemen's Journal** ,1902      **The Railroad Trainman** ,1902      **The Arena** ,1903      *The Capitalism Argument* C. Paul Smith,2019-10 Many Americans today do not understand the genius of capitalism They never learned at school how the capitalism free enterprise system has been the catalyst and foundation that has made America the most prosperous nation in the history of the world Failure to understand how capitalism is a key ingredient of our creative ingenious productive and prosperous economy puts Americans and their elected officials at risk to mishandle the many political issues that affect our economy This book is written to help cure this lack of understanding The right of the individual to own and control property is not a right that is mentioned in the Constitution But it is the most fundamental of all aspects of liberty and freedom Without the right to own and control property there is no liberty No nation in the history of the world has achieved the widespread prosperity for more people than has America And it is the freedom of capitalism that has made this happen The freedom and right to control property is what gives individuals the incentive and opportunity to create to make to produce and to reap profits and rewards Capitalism is the engine of economic prosperity Socialism deprives itself of the diversity and creativity and personal incentives that are the foundation of prosperity in the free enterprise system Capitalism is not inherently bad any more than freedom is bad Just as freedom allows for people to make choices so does capitalism allow for both good choices and bad ones For the environmentalists socialism is the way to fix climate change for them when

the government controls everything the government can make people do the things that will stop climate change Socialism is just like the quest for economic security by playing the lottery Socialists ask what your country can do for you Socialists insist that everyone is entitled to the wealth possessed by others They insist that people have the right to free stuff from the government food housing health care education a living wage vacation and retirement Any time a government takes away property from those who create it through their creativity incentive hard work marketing skills and management abilities this stifles and kills the liberties and incentives that create wealth Socialism kills the very intangibles that are the foundation of prosperity Socialism is a fraud It promises equality and prosperity for all at the expense of the wealthy This equality of benefits approach is touted as the new standard of morality which will lead to prosperity and freedom for all But it is a lie It may lead to some short term equality of property holdings but it invariably leads to a disintegration of the economy at the same time bringing a loss of freedom

**Exporting Democracy** Sophia Z Kovachevich, 2022-05-05 The world is in ferment The situation of today's world is at its worst There is trouble in every part of the world We were supposed to have peace and prosperity at the end of the Great Wars And for a few decades we did The Cold War kept peace of sorts and no major wars were fought But it all changed with the collapse of the USSR We lost the balance of power and only USA dominated At the moment there are wars all over the world on every continent it is the super powers attacking small nations The excuses are taking democracy to those countries by force through war or war on terror We are terrorising small nations in the name of ending terror by bringing not only terror but also death destruction and annihilation in our wake This book sets out to comprehensively look at the reasons behind the present condition of the world today It looks to uncover if there is any real democracy in the world today and the types of democracy available to us Not everything is suited to everyone We certainly do not want totalitarian rule in the name of democracy But that is the way we are going It is time to stop Take stock and decide do we want a better world or do we want to destroy this world Perhaps we are the final throes of our civilisation and don't even realise it
