of one language one state one people Consequently multilingualism came to be viewed as an undesirable aberration The authors of this volume approach the relationship between standard languages and multilingualism from a historical cross European perspective They provide a comprehensive overview of the emergence of a standard language ideology and its intricate relationship with matters of ethnicity territorial unity and social mobility They explain for different European language areas in what ways the emergence of standard languages had an impact on multilingual policies and practices Its comparative approach makes this volume an important resource for linguists researchers from different philologies and social historians

The Structure of Discourse-Pragmatic Variation Heike Pichler, 2013-04-08 Everyday language use overflows with discourse pragmatic features Their frequency form and function can vary greatly across social groups and change dramatically over time And yet these features have not figured prominently in studies of language variation and change The Structure of Discourse Pragmatic Variation demonstrates the theoretical insights that can be gained into both the structure of synchronic language variation and the interactional mechanisms creating it by subjecting discourse pragmatic features to systematic variationist analysis Introducing an innovative methodology that combines principles of variationist linguistics grammaticalisation studies and conversation analysis it explores patterns of variation in the formal encoding of I DON T KNOW I DON T THINK and negative polarity tags in a north east England interview corpus Speakers strategically exploit the formal variability of these constructions to signal subtle meaning differences and to index social identities closely linked to the variables and their variants functional compartmentalisation in the variety The methodology results and implications of this study will be of great interest to scholars working throughout variationist sociolinguistics grammaticalisation and discourse analysis
