Sociologists At Work Essays On The Craft:

Sociologists at work. essays on the craft of social research ed. by h Phillip E. Hammond, 1964 **Sociologists at Work. Essays on the Craft of Social Research. [By Various Authors.] Edited by P.E. Hammond** Phillip Everett HAMMOND, 1964 *The Craft of Sociology* Pierre Bourdieu, Jean-Claude Chamboredon, Jean-Claude Passeron, 1991

The work of the French sociologist Pierre Bourdieu has emerged over the last two decades as one of the most substantial and innovative bodies of theory and research in contemporary social science. *The Craft of Sociology* both a textbook and an original contribution to epistemology in social science focuses on a basic problem of sociological research: the necessity of an epistemological break with the preconstructed objects. Social practice offers to the researcher Pierre Bourdieu and his co-authors argue in the epistemological tradition of scholars like Bachelard, Canguilhem, Koyré, a tradition that identifies the construction of the object as being the fundamental scientific act. Their way of discussing the issue makes it accessible not only to academics and experts of epistemology but also to advanced students of social science. Using for illustration a wide range of texts from the various social sciences as well as from philosophy of science, the book includes an interview with Pierre Bourdieu and an introduction by the editor to his sociological methodology.

[Sociologists At Work: Essays on the Craft of Social Research](#) By Robert N. Bellah, Phillip E. Hammond (Ed), Robert Neelly Bellah, 1964 **Sociologists at Work** Robert Neelly Bellah, 1967 **Doing Research in Organizations (RLE: Organizations)** Alan Bryman, 2013-05-02

This textbook provides first hand inside accounts of the process of doing research in organizations. It is intended both for students of research methods in sociology and social psychology and for students of organization studies, organizational behaviour and management. The contributors tackle such problems as gaining access to organizations, getting on in organizations, quantitative and qualitative styles of investigation, the use of historical materials, the effects of resources on the context of research, the part played by political factors in organizational research, the relevance of grounded theory and conducting research within a cross cultural framework.

[The Americanization of Social Science](#) David Haney, 2008-01-28

A highly readable introduction to and overview of the postwar social sciences in the United States. *The Americanization of Social Science* explores a critical period in the evolution of American sociology's professional identity from the late 1940s through the early 1960s. David Paul Haney contends that during this time leading sociologists encouraged a professional secession from public engagement in the name of establishing the discipline's scientific integrity. According to Haney, influential practitioners encouraged a willful withdrawal from public sociology by separating their professional work from public life. He argues that this separation diminished sociologists' capacity for conveying their findings to wider publics, especially given their ambivalence towards the mass media as witnessed by the professional estrangement that scholars like David Riesman and C. Wright Mills experienced as their writing found receptive lay audiences. He argues further that this sense of professional insularity has inhibited sociology's participation in the national discussion about social issues to the present day.

On Becoming a Social Scientist Shulamit Reinharz, 2017-07-12 This autobiographical analysis of the many difficult issues dilemmas choices and adjustments involved in becoming a social scientist highlights the strengths and limitations of two principal research methods survey research and participant observation It emphasizes how these research methods are actually experienced in contrast to how they are ideally described in texts

Confronting American Labor Jeffrey W. Coker, 2002 *Confronting American Labor* traces the development of the American left from the Depression era through the Cold War by examining four representative intellectuals who grappled with the difficult question of labor's role in society Since the time of Marx leftists have raised over and over the question of how an intelligentsia might participate in a movement carried out by the working class Their modus operandi was to champion those who suffered injustice at the hands of the powerful From the late nineteenth through much of the twentieth century this meant a focus on the industrial worker The Great Depression was a time of remarkable consensus among leftist intellectuals who often interpreted worker militancy as the harbinger of impending radical change While most Americans waited out the crisis listening to the assurances of President Franklin D Roosevelt the Marxian left was convinced that the crisis was systemic Intellectuals who came of age during the Depression developed the view that the labor movement in America was to be the organizing base for a proletariat Moreover many came from working class backgrounds that contributed to their support of labor

Gender and the Academic Experience Kathryn P. Meadow-Orlans, Ruth A. Wallace, 1994-01-01 These memoirs provide new and thoughtful evidence that pioneers are necessarily diverse illuminating two crucial decades of dawning self understanding for women for America for the discipline of sociology Mary Catherine Bateson author of *Composing a Life* It is difficult to imagine an intellectual world with only a few if any women scholars and sociologists But that was the case nor so long ago for women such as Arlene Kaplan Daniels Dorothy Smith Arlie Russell Hochschild Jacqueline Wiseman and Lillian Rubin These and many other now eminent women in sociology began their careers as graduate students at Berkeley they tell their stories in this volume which spans two decades beginning with the first woman graduate student in 1952 With Berkeley as the backdrop each woman constructs a personal memoir of her educational experience in a department and a profession then dominated by men In this thought provoking book sixteen women describe their marginal status and how their struggles informed their studies and their later work Though each woman's story is unique common themes surface mixed feelings of intellectual self

confidence and inadequacy difficulties in integrating personal and professional worlds a net humor that both masked and helped the women cope with their hardships These compelling essays tell how these women creatively met the challenges and obstacles of our gendered society conducted their lives intrepidly and left a clearer path for those who followed Gender and the Academic Experience illustrates that times are changing by 1991 women made up the majority of graduate students in the Berkeley sociology department Kathryn P Meadow Orland is a senior research scientist and professor in the Department of Educational Foundations and Research at Gallaudet University in Washington D C She helped pioneer a program of research and mental health services for deaf people and her inventories for teachers of deaf children have been translated into eight languages She has published Deafness and Child Development and co authored Sound and Sign Childhood Deafness and Mental Health

EBOOK: FOR EDUCATION Wilfred Carr, 1995-02-16 A recent review of his work describes Wilfred Carr as one of the most brilliant philosophers now working in the rich British tradition of educational philosophy His work is rigorous refreshing and original and examines a number of fundamental issues with clarity and penetration In For Education Wilfred Carr provides a comprehensive justification for reconstructing educational theory and research as a form of critical inquiry In doing this he confronts a number of important philosophical questions What is educational theory What is an educational practice How are theory and practice related What is the role of values in educational research Is a genuinely educational science possible By appealing to developments in critical theory the philosophy of science and the philosophy of the social sciences Wilfred Carr provides answers to these questions which vindicate the idea of an educational science that is not on or about education but for education a science genuinely committed to promoting educational values and ideals

The Practice of Organizational Diagnosis Clayton Alderfer PhD, 2010-10-28 The Practice of Organizational Diagnosis Theory Methods presents a new paradigm for examining the intergroup dynamics of organizations by combining the procedures of organizational diagnosis with the theory of embedded intergroup relations In this volume Alderfer explains the relevance of the paradigm concept for the present work shows the importance of intergroup relations in the formative organization studies reviews extant modes of organizational diagnosis and demonstrates the limitations of interpersonal and intra group theories He then presents the five laws of embedded intergroup relations as a response to the problems associated with the earlier work After comparing and contrasting alternative group level theories and explaining the several meanings of empirical support the author describes the empirical basis of the five laws Based on examining alternative codes of professional conduct and applying the five laws he provides his prescriptions for the ethical basis of sound diagnostic practice With the theory and ethical position in place he then explains procedures for conducting each phase of organizational diagnosis entry data collection data analysis and feedback He follows that by reporting the empirical bases for the methods used in the four phases The volume concludes by describing the courses and educational processes essential for educating people to conduct organizational diagnoses A recurring theme

from beginning to end is that the lawfulness of human behavior in relation to organizations is as applicable to diagnosticians whether working alone or in teams as it is to their clients By addressing theory method data and values the volume presents a complete paradigm for organizational diagnosis
