Natural Resources Institute,1971 Ocean Transportation of Grain to Russia United States. Congress. House. Merchant Marine and Fisheries,1964 *Firebird* Charles L. Harness,2015-07-30 From the distant dipoles of the universe two telepathic computers Largo and Czandra known as Control rule over life on all civilized planets And now with Project Cancelar Control has formulated a plan for achieving immortality a plan which requires as fodder the collapsing of the universe and the destruction of all life And there is nothing the humans can do But there is another force in the universe hidden in the abyss of the Silent Quarter plotting destruction of Control A force that is about to be demolished Before it expires it launches from its depths a magic ring an elixir and a man and a woman in love riding within the living spirit of a remarkable spaceship to do battle against the cumulative technology of the entire universe Contact of the Best Kind G G Royal,2018-11-17 In 1947 Roswell New Mexico eyewitnesses swore that a UFO has crashed Stories that extraterrestrial bodies were recovered have surfaced Army intelligence refuted the story the very next day and gave an explanation that it was only a weather balloon that had fallen back to Earth They have stood behind that story ever since In the summer of 2016 a young couple and their daughter along with a family friend were taking their spacious boat from Miami Florida to Baltimore Maryland In the most incredible sequence of events they were shipwrecked to an uninhabited island To the public the missing group has now forever become a part of the conspiracy theory of missing cases in the notorious Bermuda Triangle Three young strangers blow the doors off that conspiracy theory with an even bigger truth and attempt to pull off the most amazing rescue of all time Using just their individual strengths and intelligence these young people learned to trust and depend on each other as they hide the answer to one of mankind s greatest questions are we alone in the universe The Message Jeff Lefler,2014-06-20 In a world of advancing technology more is known about the universe than ever before There are billions of galaxies There are billions of earth like planets and some of them are not very far away After years of research at NASA s Jet Propulsion Laboratory a ship has been constructed with the hope of it being able to reach one of these earth like planets But who will make the journey Who will take the risk What will they find and how will it change things on planet earth Uncertain of the ship s fate long after its departure many wait in anticipation for the message **Ocean Transportation of Grain to Russia** United States.
