Switching Channels Organization And Change In Tv Broadcasting:

Switching Channels Richard E. Caves, Karen Guo, 2005-09-15 Media critics invariably disparage the quality of programming produced by the U S television industry But why the industry produces what it does is a question largely unasked It is this question at the crux of American popular culture that *Switching Channels* explores In the past twenty five years the expansion of cable and satellite systems has transformed television Richard Caves examines the economics of this phenomenon and the nature and logic of the broadcast networks response to the incursion of cable TV especially the shift to inexpensive unscripted game and reality shows and news magazines An explanation of these changes Caves argues requires an understanding of two very different sectors the creative industry which produces programs and the commercial channels which bring them to viewers His book shows how distributors judgment of profitability determines the quality and character of the programs the creative industry produces This determination writes Caves depends on the number and types of viewers that various programs can attract and advertisers willingness to pay for their attention as well as the organization of the networks that package programs the distributors that transmit them and the deals these parties strike with one another

Switching Channels Richard E CAVES, Richard E Caves, Karen Guo, 2009-06-30 Media critics invariably disparage the quality of programming produced by the U S television industry But why the industry produces what it does is a question largely unasked It is this question at the crux of American popular culture that *Switching Channels* explores [Handbook on the Economics of the Media](#) Robert G Picard, Steven S Wildman, 2015-02-27 Media industries and services present a complex set of challenges to economic analysis challenges made more difficult by the technological changes that have been transforming the media sector Research on the economics of media has made major advances **Media Programming** David Wise, 2010-08 The media industry plays a vital role in informing and entertaining the public Media ownership and the availability of diverse programming have been a long standing concern of Congress Despite numerous programming choices in TV and radio available to the public independently produced programming that is programming not affiliated with broadcast networks or cable operators has decreased through the years This report discusses 1 the extent to which the sources of TV programming have changed over the last decade 2 the factors industry stakeholders identified as affecting the availability of independent TV programming and 3 the factors industry stakeholders identified as influencing programming decisions in radio *Illus* *Managing Media Firms and Industries* Gregory Ferrell Lowe, Charles Brown, 2015-08-20 This volume provides rich insight into the nature and practice of media management Contributions assess the degree to which management of media firms requires a unique set of skills highlighting similarities and differences of media firms compared with other industries in terms of management practices HR development and operational aspects Success and limitations of research on media management theory is evaluated both drawing on management theory and examining insights from other disciplines Dimensions for future research are considered along with practical implications for media managers and

corporate structures The book serves as a valuable reference for researchers advanced students and practitioners in media industries

News as Entertainment Daya Kishan Thussu, 2008-01-09 Thussu brings to this project the passion for news of a socially committed former journalist the political economy of his international relations education and a formidable assembly of global detail examining the recent explosion of infotainment John Downing Southern Illinois University Thussu's account of war as infotainment the Bollywoodization of news and the emergence of a global infotainment sphere is as compelling as it is alarming This is a significant and essential book for anyone interested in exploring the connections between news journalism informed citizenship and democracy Bob Franklin The Cardiff School of Journalism Media and Cultural Studies Richly detailed and empirically grounded this first book length study of infotainment and its globalization by a leading scholar of global communication offers a comprehensive and critical analysis of this emerging phenomenon Going beyond both geographically and theoretically the dumbing down discourse largely confined to the Anglo American media the book argues that infotainment may have an important ideological role a diversion in which soft news masks the hard realities of neo liberal imperialism Chapters include a historical appraisal of infotainment the infrastructure for its globalization as well as coverage of recent wars on television news as high tech infotainment and the growing synergies between Hollywood and Bollywood originated infotainment A global infotainment sphere is emerging the book argues within which competing versions of news from 24 7 news networks to bloggers coexist Accessible engagingly written and robustly argued the book combines analyses of theoretical debates on infotainment with extensive and up to date comparative data

Transmedia Television M.J. Clarke, 2012-12-20 Faced with what many were calling a dying medium US network television producers became much more aggressive in seeking out alternative business and artistic models in the beginning of this century Most significantly many of these producers turned to the emerging field of transmedia ancillary texts in comicbooks novels and new media as a way to bolster and support television products In this book the author examines four such programs 24 Alias Heroes and Lost and investigates how transmedia was incorporated into both the work and the art of network television production Split into two complementary parts the book first paints a picture of how transmedia producers were or were not incorporated into creative decision making centers of these serialized programs The second section explains how the presence of off site transmedia texts begins to alter the very narrative construction of the on air series themselves Including interviews with the transmedia workers this groundbreaking study extends the field of television studies into brand new areas and brings a dying medium into the 21st Century
