Swordthrust Mayfair Games:

Swordthrust (Role Aids) Mayfair Games, Incorporated, 1983-12-01 **Player vs. Monster** Jaroslav Svelch, 2023-02-07 An ode to the gruesome game characters we love to beat from the monsters of D D to the mutants of The Last of Us and what they tell us about ourselves Since the early days of video games monsters have played pivotal roles as dangers to be avoided level bosses to be defeated or targets to be destroyed for extra points But why is the figure of the monster so important in gaming and how have video games come to shape our culture s conceptions of monstrosity To answer these questions Player vs Monster explores the past half century of monsters in games from the dragons of early tabletop role playing games and the pixelated aliens of Space Invaders to the malformed mutants of The Last of Us and the bizarre beasts of Bloodborne and reveals the common threads among them Covering examples from aliens to zombies Jaroslav velch explores the art of monster design and traces its influences from mythology visual arts popular culture and tabletop role playing games At the same time he shows that video games follow the Cold War era notion of clearly defined calculable enemies portraying monsters as figures that are irredeemably evil yet invariably vulnerable to defeat He explains the appeal of such simplistic video game monsters but also explores how the medium could evolve to present more nuanced depictions of monstrosity
