Sylloge Nummorum Sasanidarum Band Iii:

The Parthian and Early Sasanian Empires Vesta Sarkhosh Curtis, Michael Alram, Touraj Daryaee, Elizabeth Pendleton, 2016-08-30 Although much of the primary information about the Parthian period comes from coins there has been much new research undertaken over the past few decades into wider aspects of both the Parthian and Sassanian Empires including the Arsacid Parthians and their material culture Despite a change of ruling dynasty the two empires were closely connected and cannot be regarded as totally separate entities The continuation of Parthian influence particularly into the early Sasanian period cannot be disputed An historic lack of detailed information arose partly through the relative lack of excavated archaeological sites dating to the Parthian period in Iran and western scholars lack of knowledge of recent excavations and their results that are usually published in Persian coupled with the inevitable difficulties for academic research engendered by the recent political situation in the region Although an attempt has been made by several scholars in the west to place this important Iranian dynasty in its proper cultural context the traditional GrecoRoman influenced approach is still prevalent The present volume presents 15 papers covering various aspects of Parthian and early Sasanian history material culture linguistics and religion which demonstrate a rich surviving heritage and provide many new insights into ideology royal genealogy social organization military tactics linguistic developments and trading contacts **Dinars and Dirhams**, 2021-02-01 The present volume is dedicated to Michael L Bates Curator Emeritus of Islamic Coins at the American Numismatic Society For more than forty years Michael has been a major figure in the field of Islamic numismatics through his writing teaching and being a resource for scholars students and collectors The list of contributors to this volume and the range of their contributions are testament to Michael's continued and vital influence on numismatic and historical studies This volume was previously published by the Jordan Center for Persian Studies University of California Irvine The Eastern Frontier Robert Haug, 2019-06-27 Transoxania Khurasan and Ukhraistan which comprise large parts of today's Central Asia have long been an important frontier zone In the late antique and early medieval periods the region was both an eastern political boundary for Persian and Islamic empires and a cultural border separating communities of sedentary farmers from pastoral nomads Given its peripheral location the history of the eastern frontier in this period has often been shown through the lens of expanding empires However in this book Robert Haug argues for a pre modern Central Asia with a discrete identity a region that is not just a transitory space or the far flung corner of empires but its own historical entity From this locally specific perspective the book takes the reader on a 900 year tour of the area from Sasanian control through the Umayyads and Abbasids to the quasi independent dynasties of the Tahirids and the Samanids Drawing on an impressive array of literary numismatic and archaeological sources Haug reveals the unique and varied challenges the eastern frontier presented to imperial powers that strove to integrate the area into their greater systems This is essential reading for all scholars working on early Islamic Iranian and Central Asian history as well as those with an interest in the dynamics of
