Leonard Bernstein and His Young People's Concerts Alicia Kopfstien-Penk, 2015-01-22 Leonard Bernstein touched millions of lives as composer conductor teacher and activist He frequently visited homes around the world through the medium of television particularly through his fifty three award winning Young People s Concerts 1958 1972 which at their height were seen by nearly ten million in over forty countries Originally designed for young viewers but equally attractive to eager adults Bernstein s brilliance as a teacher shined brightly in his televised presentations And yet despite the light touch of the maestro the innocence of his audience and the joyousness of each show s topic the turbulence of the times would peek through In this first in depth look at the series Alicia Kopfstien Penk s Leonard Bernstein and His Young People s Concerts illustrates how the cultural social political and musical upheavals of the long sixties impacted Bernstein s life and his Young People s Concerts Responding to trends in corporate sponsorship censorship and arts programming from the Golden Age of Television into the 1970s the Young People s Concerts would show the impact of and reflect the social and cultural politics of the Cold War Vietnam the Civil Rights and Women s Movements and the Counterculture Bernstein cheerfully bridged classical and popular tastes juxtaposing the Beatles with Mozart even as he offered personal televised pleas for peace and unity At the same time the concerts reflect Bernstein s troubled relationship as a professional musician with the dominance of atonality and his quest to nurture American music Anyone who enjoys the oeuvre of Leonard Bernstein has watched his Young People s Concerts or is passionate about the history of the long sixties will find in Leonard Bernstein and His Young People s Concerts a story of all three captured in this monumental study *Collected Thoughts on Teaching and Learning, Creativity, and Horn Performance* Douglas Hill, 2001 Douglas Hill is professor of music and horn at the University of Wisconsin at Madison as well as a past President of the International Horn Society and a respected teacher and clinician The 27 chapters of *Collected Thoughts* cover topics ranging from getting started to preparing for college and professional auditions and include other subjects such as composing and improvising There are seven chapters on repertoire that include reviews of music and texts that are the most comprehensive of any horn or other instrumental text to date The process of learning and teaching is extremely insightful for everyone from the serious student to the most experienced instructor This book is a must for anyone interested in the horn It is invaluable
