and radiation have on all aspects of our life Photobiology is a true interdisciplinary field Photobiology research plays a direct
role in diverse fields and a glance at the topics of the symposia covered in this book by over 100 articles shows the breadth
and depth of knowledge acquired in fundamental research and its impact on the major issues and applied problems the world
is facing Half a century of photobiology research brought about an understanding of the importance of light to life both as a
necessary source of energy and growth as well as its possible dangers Research in photochemistry and photobiology led to
the discoveries of cellular repair mechanisms of UV induced damages to DNA and this led to understanding of the effects of
hazardous environmental chemieals and mutagenecity and to the development of genetic engineering This topic was given
