your fingertips to amaze your friends **Jaredites: the Missing Civilization X** Jim Hendleman, 2013-05-20 This book covers the origin and archaeological development of selected categories of civilized elements identified as being Jaredite in origin. It is an attempt to elevate the Jaredite civilization into the light of day from the heretofore dark mists of history where science has forced it for the last 2 500 years. The Jaredite civilization spanned a possible 2 530 years and its known achievements have far exceeded those of modern man in many regards. In c 2800 BC the Jaredites built a pair of concrete superhighways over 2 700 miles complete with paved exits and a secondary road network nearly the entire length of the South American continent. Their civilization could answer the riddles of the Sphinx, the questions of who built the pyramids and why, the mystery and likely origin of UFOs, prove whether or not George Lucas had the only ET detail what Noah brought aboard the ark besides three sons and their families and provide an answer to the question posed to Dr J Robert Oppenheimer by a student as to whether Alamogordo's nuclear bomb in July 1945 was the first ever atomic bomb explosion in history. Many other possible but likely Jaredite achievements are incredibly fascinating and await only an honest archaeological effort to prove them. The historical facts exist, they are real and three dimensional but to date standard classical science has relegated them to the dustbin of history's forgotten basement closet. Satan has made a tremendous effort since mankind's beginning to keep man blinded to the historical facts of our heritage causing the deliberate destruction of millions of artifacts, scrolls, books and whole libraries throughout the world to do so. This book is but a small effort to expose and make known a portion of mankind's previously hidden but rightful heritage *O enigma de Akakor* Raphael

Erichsen, 2025-03-30 Um livro esquecido sobre uma civilização desaparecida no tempo o ponto de partida de uma investigação em busca da verdade que se esconde em uma improvável fábula amazônica. Esta jornada acaba revelando assassinatos em série, planos nazistas e uma farsa de proporções internacionais na maior floresta tropical do mundo. Por mais estranho que pareça, esta trama não é ficção. O enigma de Akakor remonta história por trás da morte do repórter alemão Karl Brugger assassinado no caladário da praia de Ipanema em 1984. O mistério do assassinato do jornalista levanta suspeitas sobre a existência de Akakor, uma suposta sociedade antiga que teria existido na floresta. Brugger, autor de A crônica de Akakor, livro que nos anos 1970 chamou a atenção do mundo para a floresta amazônica. Teria ele criado uma grande fábula ou sido vítima de uma bizarra arma?

The Green Labyrinth Sylvia Fraser, 2014-03-31 Limited time offer In the critically acclaimed *The Rope in the Water* Sylvia Fraser described her three month pilgrimage to India in search of something larger than myself, something deeper, something more. In *The Green Labyrinth* Fraser continues her journey this time deep into the jungle of the Amazon in the company of shamans, traditional spiritualists practicing ancient rituals. At the heart of Fraser's quest lies the mind-expanding drug ayahuasca, a gateway to worlds beyond her own, to a better understanding of the mysteries of existence. Fraser takes us to shamanic sanctuaries that hover at the edge of our modern world, providing a portal to the unknown. Along the way she introduces us to a diverse group of pilgrims searching for their own answers with the help of shamans and ayahuasca.

Through meaningful visions and with spiritual guidance Fraser and her fellow travellers acquire insight into their emotional and psychic lives and discover that many of the answers they are searching for lie within themselves **The Lost**

Civilization Enigma Philip Coppens, 2012-10-22 An examination of archaeological controversies with arguments showing evidence of prehistoric civilizations not recorded as part of human history Are history books giving us the whole story Or is civilization far more complex and older than we have been taught Our school textbooks barely mention the 6 000 year old Sumerian civilization yet the latest archaeological findings at sites such as Jericho and most recently Gobekli Tepe in Turkey have been dated to 10 000 BC Civilization goes back at least another 10 000 years if we are willing to believe what our ancestors themselves claimed The Lost Civilization Enigma reveals the truth about Lost magnitudes to known cultures such as the Bosnian Pyramids and the civilization of Old Europe The fabled lost golden cities of South America and the Amazon which are slowly being rediscovered Fascinating examples of lost technology such as the Antikythera Device Atlantis and the fact that it was a real civilization Analyzing the historical and archaeological record best selling author Philip Coppens demonstrates that there is substantial evidence that civilization is far older far more advanced and far more special than is currently accepted Clearly our history books have left out a great deal *Atlantis Rising Magazine - 115 January/February 2016* J.
