Religion, Power, and the Rise of Shinto in Early Modern Japan Stefan Köck, Brigitte Pickl-Kolaczka, Bernhard Scheid, 2021-04-08 This book sheds new light on the relationship between religion and state in early modern Japan and demonstrates the growing awareness of Shinto in both the political and the intellectual elite of Tokugawa Japan even though Buddhism remained the privileged means of stately religious control The first part analyses how the Tokugawa government aimed to control the populace via Buddhism and at the same time submitted Buddhism to the sacralization of the Tokugawa dynasty The second part focuses on the religious protests throughout the entire period with chapters on the suppression of Christians heterodox Buddhist sects and unwanted folk practitioners The third part tackles the question of why early Tokugawa Confucianism was particularly interested in Shinto as an alternative to Buddhism and what Shinto actually meant from a Confucian stance The final part of the book explores attempts to curtail the institutional power of Buddhism by reforming Shinto shrines an important step in the so called Shintoization of shrines including the development of a self contained Shinto clergy

The Rise of Indigenous Economic Power Carol Anne Hilton, 2025-05-06 Indigenomics in action moving beyond Indian Act economics towards Indigenous economic sovereignty In this groundbreaking new work Carol Anne Hilton author of the bestselling Indigenomics explores the phenomenon of growing Indigenous economic power and sovereignty achieved despite monumental historic injustices The Indigenous economy in Canada is on track to exceed 100 billion Yet full Indigenous participation at the economic table is still fundamentally lacking due in large part to the inherently colonial and racist policies of the Indian Act Hilton deconstructs these systemic barriers and maps an ethical way forward based on radical inclusion and Indigenomics in action Coverage includes The far reaching social and moral consequences of Indian Act economics a tool used to legislate away Indigenous rights and jurisdiction with the express purpose of erasing

First Nations The true cost of maintaining the status quo from perpetuating inequality and cycles of Indigenous poverty to lost opportunities for value creation in Indigenous and settler economies Twenty five transformative trends driving Indigenous economic growth Required reading for Indigenous organizations Nations and allies business leaders and investors lawyers and policymakers governments at all levels and everyone interested in reconciliation decolonization and building a just prosperous and inclusive society The Rise of Caring Power Annemieke van Drenth, Francisca de Haan, 1999 This original study discusses the role of women in developing and dispersing caring power and vice versa the role of caring power in constituting women as modern social subjects processes which began around 1800 Based on the historian philosopher Foucault's concept of pastoral power caring power also takes into account the vital role played by gender Both humanitarian and religious motives fostered the ideal of serving the well being of individual others and thereby the interest of society as a whole With the rise of caring power this book argues women began to feel responsible for those of their own sex and to organize themselves in all female organizations In the process they carved out new gender identities for themselves and the women in their care The authors illustrate this profound historical change with the work of the reformers Elizabeth Fry 1780 1845 and Josephine Butler 1828 1906 and trace their impact in Britain and the Netherlands Words of Power Jem Bloomfield, 2016-05-26 Shakespeare and the Bible are titans of English speaking culture their images are endlessly cited and recycled and their language permeates everything from our public ceremonies to our private jokes In Words of Power Jem Bloomfield explores the cultural reverberations of these two collections of books and how each era finds new meanings as they encounter works such as Hamlet or the Gospel of Mark Beginning with a shrewd examination of how we have codified and standardised their canons deciding which books and which words are included in the official collections and which are excluded Bloomfield charts the ways in which every generation grapples with these enigmatic and complex texts He explores the way they are read and performed in public the institutions that use their names to legitimise their own activities and how the texts are quoted by politicians lords and rappers Words of Power throws modern ideas about Shakespeare and the Bible into sharp relief by contrasting them with those of our ancestors showing how our engagements with these texts reveal as much about ourselves as their actual meanings The Church in the Power of the Spirit Jürgen Moltmann, 1993-09-01 This book which in my opinion is Moltmann's best can be recommended on the basis that it contains challenging and creative insights that can be used by the discriminating reader in the service of church renewal Moltmann represents the theology of liberation at its best and those who wish to know more about this theology would do well to study this creative and searching theologian Donald G Bloesch Christianity Today Moltmann is perhaps unsurpassed among his contemporaries in keenness of insight and rhetorical power Daniel L Migliore Theology Today Moltmann presents a stirring vision which every Christian community could well ponder With a missionary emphasis he seeks to help the reader face the question of the church's identity in the light of the contemporary political economic and social scene Religious Education
