The Citizen And Politics A Comparative Perspective:

The Citizen and Politics Sidney Verba, Lucian W. Pye, 1978 **The Cultural Logic of Politics in Mainland China and Taiwan** Tianjian Shi, 2015 This book uses surveys statistics and case studies to explain why and how cultural norms affect political attitudes and behavior **Environmental Protest and Citizen Politics in Japan** Margaret McKean, 2023-11-15 Environmental Protest and Citizen Politics in Japan examines the development and significance of citizens movements in Japan particularly those centered around environmental activism from the early 1970s The author initially set out to study political behavior and participation believing that citizens movements were similar to other protest groups but the research led to surprising discoveries Contrary to initial expectations these movements proved to be a unique blend of protest and community organization defying conventional political structures and assumptions The book focuses on the political social and environmental changes that these movements initiated highlighting their role in fostering political participation and social transformation By conducting surveys in 1972 the author captures the emergence of these movements at their most vibrant when they were not yet institutionalized or following established trends Although the movements were largely successful in their immediate goals their broader influence on Japan's political landscape especially regarding electoral change and the nature of political conflict remains more modest The book reflects on the evolution of these movements their impact on political processes and the role of social movements in shaping democratic values while also analyzing the gaps between their goals and their practical achievements It ultimately presents a nuanced understanding of Japanese citizens movements and their political implications This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981 **The Politics of Gender Equality** Carol Johnson, 2024-08-22 This open access book provides the first in depth study of the development of federal gender equality politics and policy in Australia from the 1970s to the present day Australia has a history of gender equality innovation including granting women's suffrage long before equivalent countries From the 1970s on it became the first country to introduce a women's adviser femocrats feminist bureaucrats and gender responsive budgeting but then fell behind partly due to the influence of Anglosphere neoliberalism However the Albanese government has pledged to make Australia a world leader in gender equality again The book situates Australia in an international context assessing the useful though sometimes salutary lessons which the Australian experience provides It engages with key literature including feminist political theory discursive framing analysis gendered public policy analysis LBGTIQ issues path dependency and gender and leadership It will interest academics undergraduate and postgraduate researchers public policy experts and practitioners and a broader readership interested in issues of gender equality The book makes innovative contributions to the study of the politics of

gender equality policy addressing what a gender equality policy agenda could look like if the needs of women in all their intersectional social diversity were the driving force. In doing so it addresses a range of issues that are impacting the future of women including an ongoing pandemic technology education and training agendas issues of sovereign capability securitisation climate change and the growth of campaigns that oppose so called gender ideology. It explores how current government agendas such as the focus on wellbeing could be made even more gender inclusive. Finally the book suggests that Australia as a multicultural but predominantly Western settler colonial society situated in the Asia Pacific has some potentially unique insights to offer in a world facing major geoeconomic and geopolitical change. *Citizen Politics* Russell J. Dalton, 2013-05-21. Now more than ever people drive the democratic process. What people think of their government and its leaders how or whether they vote and what they do or say about a host of political issues greatly affect the further strengthening or erosion of democracy and democratic ideals. This fully updated new sixth edition of *Citizen Politics: Public Opinion and Political Parties in Advanced Industrial Democracies* by Russell J. Dalton continues to offer the only truly comparative study of political attitudes and behavior in the United States Great Britain France and Germany. In addition to its comprehensive thematic examination of political values political activity voting and public images of government within a cross national context *Citizen Politics* explores new forms of political activity such as Internet based activism and new forms of political consumerism. All chapters have been updated with the latest research and empirical evidence. Further Dalton includes new discussions of citizen sophistication and its implications for democratic citizenship. *The Politics of Citizenship in Indonesia* Eric Hiarij, Kristian Stokke, 2022-02-10. This book highlights the gains that a citizenship approach offers to the study of democracy in Indonesia demonstrating that the struggle for citizenship and the historical development of democracy in the country are closely interwoven. The book arises from a research agenda aiming to help Indonesia's democracy activists by unpacking citizenship as it is produced and practiced through movements against injustice taking the shape of struggles by people at grassroots levels for cultural recognition social and economic injustice and popular representation. Such struggles in Indonesia have engaged with the state through both discursive and non discursive processes. The authors show that while the state is the common focal point these struggles are fragmented across different sectors and subject positions. The authors thus propose that developing chains of solidarity is highly important to motivating a democracy that not only has sovereign control over public affairs but also robust channels and organisations for political representation. In advocating the development of transformative agendas organisations and strategies as an important need and an enduring challenge for the realization of citizenship this book is timely and relevant to the study of contemporary Indonesia's socio political landscape. It is relevant to students and scholars in political science anthropology sociology human geography and development studies. *The Politics of Citizenship in Europe* Marc Morjé Howard, 2009-09-07. In this book Howard addresses immigrant integration one of the most critical challenges facing European countries the resolution of

which will in large part depend on how foreigners can become citizens Howard's research shows that despite remarkable convergence in their economic judicial and social policies the countries of the European Union still maintain very different definitions of citizenship Based on an innovative measure of national citizenship policies the book accounts for both historical variation and contemporary change Howard's historical explanation highlights the legacies of colonialism and early democratization which unintentionally created relatively inclusive citizenship regimes Howard's argument focuses on the politics of citizenship showing in particular how anti immigrant public opinion when activated politically usually by far right movements or public referenda can block the liberalizing tendencies of political elites Overall the book shows the far reaching implications of this growing and volatile issue The Oxford Handbook of Swiss Politics Patrick

Emmenegger,Flavia Fossati,Sijla Häusermann,Yannis Papadopoulos,Pascal Sciarini,Adrian Vatter,2024 This volume provides a comprehensive account of the many different facets of the Swiss political system and of the major developments in modern Swiss politics The chapters offer analyses relevant not only to political science but also to international relations European studies history sociology law and economics *The politics of participation* Matt Qvortrup,2013-07-19 We live in an age of democracy Very few people challenge the virtues of government by the people yet politicians and commentators are fond of decrying the crisis of democracy How do these views square up This book provides the answer by surveying the philosophical history of democracy and its critics and by analysing empirical data about citizen participation in Britain and other developed democracies In addition to analysis of major political thinkers like Plato Machiavelli and J S Mill the book analyses how modern technology has influenced democracy Among the issues discussed in the book are why people vote and what determines their decisions what prompts citizen involvement in riots and demonstrations whether spin doctors and designer politics pose a threat to democracy and the influence of mass media on our political behaviour More than merely providing an overview the book also presents original analyses of timely issues such as referendums and the consequences of postal voting An essential book for students of politics history and media studies this study puts the debate about democracy into perspective and offers a solid grounding for future discussions **Citizenship as a Regime** Mireille Paquet,Nora

Nagels,Aude-Claire Fourot,2018-07-02 State building is an ongoing process that first defines legitimate citizenship and then generates citizens Political analysts and social scientists now use the concept of citizenship as a lens for considering both the evolution of states and the development of their societies In *Citizenship as a Regime* leading political scientists from Canada Europe and Latin America use insights from comparative politics institutionalism and political economy to understand and analyze the dynamics of contemporary policies and politics This book celebrates Jane Jenson's work and many of her contributions to political science and the study of Canadian politics Featuring Jenson's concept of citizenship regime the collected chapters consider its theoretical and methodological underpinning and presents new applications to various empirical contexts Contributors present original research critically assess the idea of a citizenship regime and suggest ways

to further develop Jane Jenson's notion of a citizenship regime as an analytical tool. Research essays in this volume consider various social forces and dynamics such as neoliberalism, inequality, LGBTQ movements, the rise of populism amid nationalist movements in multinational societies including Indigenous self-determination claims and how they transform the politics of citizenship. These collected contributions by former students, collaborators, and colleagues of Jenson highlight her lasting influence on the contemporary study of citizenship in Canada and elsewhere. Contributors include Marcos Ancelovici (UQAM), James Bickerton (St. Francis Xavier University), Maxime Boucher (Université de Montréal), Neil Bradford (Huron University College), Alexandra Dobrowolsky (Saint Mary's University), Pascale Dufour (Université de Montréal), Jane Jenson (Université de Montréal), Rachel Laforest (Queen's University), Rianne Mahon (Wilfrid Laurier University), Bréngere Marques Pereira (Université Libre de Bruxelles), Martin Papillon (Université de Montréal), Denis Saint-Martin (Université de Montréal), and Miriam Smith (York University).
