The Classic Frank Kermode,1975 Frank Kermode attempts to determine the criteria for classical literature through an analysis of the social and intellectual importance of great works of the past Taking Stock – Twenty-Five Years of Comparative Literary Research ,2019-10-29 Read an interview with Norbert Bachleitner In this 200th volume of Internationale Forschungen zur Allgemeinen und Vergleichenden Literaturwissenschaft the editors Norbert Bachleitner Achim H H lter and John A McCarthy take stock of the discipline It focuses on recurrent questions in the field of Comparative Literature What is literature What is meant by comparative Or by world What constitute transgressions or refractions What ultimately does being at home in the world imply When we combine the answers to these individual questions we might ultimately reach an intriguing proposition Comparative Literature contributes to a sense of being at home in a world that is heterogeneous and fractured rather than affirming a monolithic canon marked by territory and homogeneity The volume unites essays on world literature literature in the context of the history of ideas comparative women and gender studies aesthetics and textual analysis and literary translation and tradition **The Routledge Handbook of Classics, Colonialism, and Postcolonial Theory** Katherine Blouin,Ben Akrigg,2024-07-29 This handbook explores the ways in which histories of colonialism and postcolonial thought and theory cast light on our understanding of the ancient Mediterranean world and the discipline of Classics utilizing a wide body of case studies and providing avenues for future research and discussion It brings together chapters by a wide international and intersectional range of scholars coming from a variety of backgrounds and sub disciplinary perspectives and from across the chronological and geographical scope of Classics Chapters cover the state of current research into ancient Mediterranean and South Central and West Asian histories They provide case studies to illustrate both how postcolonial thought has already illuminated our understanding of the ancient Mediterranean world and beyond as well as its potential for the future Chapters also provide opportunities for reflection on the current state of the discipline An introduction by the volume editors offers a survey of the development of postcolonial theory its relationship to other bodies of theory and its connections to Classics Toward the end of the book three scholars with different career and disciplinary perspectives provide short reflections on the themes of the volume and the directions of future research The Routledge Handbook of Classics Colonialism and Postcolonial Theory offers an impressive collection of current research and thought on the subject for students and scholars in classical studies understood in its larger sense as well as in related disciplines such as Archaeology Ancient History Imperial History and the History of Colonialism Reception Studies and Museum Studies For anyone interested in classical antiquity it provides an engaging introduction to a potentially bewildering but ultimately vital and enriching body of thought and theory Citizen Steinbeck Robert

McParland,2016-09-29 John Steinbeck is one of the most popular and important writers in American literature Novels such as *The Grapes of Wrath* *Of Mice and Men* and *East of Eden* and the journal *Travels with Charley* convey the core of Steinbeck's work fiction that is reflective and compassionate The Nobel prize winner cared deeply about people and his writing captured the spirit determination and willingness of individuals to fight for their rights and the rights of others His art of caring is critical for today's readers and as a touchstone for our collective future In *Citizen Steinbeck Giving Voice to the People* Robert McParland explains how the author's work helps readers engage in moral reflection and develop empathy McParland also looks at the ways educators around the world have used Steinbeck's writings both fiction and nonfiction to impart ideals of compassion and social justice These ideals are weaved into all of Steinbeck's work including his journalism and theatrical productions Drawing on these texts as well as interviews with secondary level teachers this book shows how Steinbeck's work prompts readers to think critically and contextually about our values Demonstrating the power a single author can have on generations of individuals around the world *Citizen Steinbeck* enables readers to make sense of both the past and the present through the prism of this literary icon's inspirational work

The Classical Tradition Anthony Grafton,Glenn W. Most,Salvatore Settis,2010-10-25 A vast cabinet of curiosities Stephen Greenblatt Eclectic rather than exhaustive less an encyclopedia than a buffet *Frederic Raphael Literary Review* How do we get from the polis to the police Or from Odysseus's sirens to those of an ambulance The legacy of ancient Greece and Rome is all around us imitated resisted reworked and misunderstood In this beautifully illustrated and encyclopedic compendium a team of leading scholars investigates the afterlife of this rich heritage in the fields of literature philosophy art architecture history politics religion and science From Academy to Zoology Aristotle and the Argonauts to Pegasus and Persia *The Classical Tradition* looks at facts and adages people places and ideas to reveal how the Classical tradition has shaped human endeavors from government to medicine drama to urban planning legal theory to popular culture At once authoritative and accessible learned and entertaining it illuminates the vitality of these enduring influences

Fashioning the Future in Roman Greece Estelle Strazdins,2023-01-10 *Fashioning the Future in Roman Greece* Memory Monuments Texts uses literature inscriptions art and architecture to explore the relationship of elite Greeks of the Roman imperial period to time This wide ranging work challenges conventional thinking about the temporal positioning of imperial Greece and the so called Second Sophistic which holds that it was obsessed above all with the Classical past Instead the volume establishes that imperial Greek temporality was far more complex than scholarship has previously allowed by detailing how contemporary cultural output used the past to position itself within tradition but was crafted to speak to the future At the same time the book emphasizes the value of interdisciplinary analysis in any explication of elite culture in Roman Greece since abundant extant evidence reveals its purveyors were often responsible for the production of both literature and material culture Strazdins shows how these two modes of cultural production in the hands of elites such as Herodes Atticus Arrian Aelius Aristides Lucian Dio Chrysostom

Polemon Pausanias and Philostratus exhibit a shared rhetoric oriented towards posterity and informed by a heightened awareness of the fragility of cultural and personal memory over large spans of time The book thus provides a sophisticated analysis of the tensions anxieties and opportunities that attend the fashioning of commemorative strategies against the background of the Second Sophistic and the Roman empire and details the consequences of embroilment with futurity on our understanding of the cultural and political concerns of elite imperial Greeks **Latin Poetry and the Judgement of Taste**
