The Cluetrain Manifesto, Tenth Anniversary Edition Rick Levine, 2009

The Cluetrain Manifesto Rick Levine, 2003-12 What if the real power of the World Wide Web lay not in the technology behind it but in the profound changes it brings to the way people interact with business And what if these changes were altering the nature of your company as profoundly as they have changed your markets This book explains how through the Internet people are discovering new ways to share relevant knowledge with blinding speed Companies that aren t engaging in these exchanges are missing an unprecedented opportunity This book provides a rich tapestry of anecdotes object lessons parodies insights predictions to illustrate how the Internet has radically reframed the immutable

laws of business what business needs to know to weather the seismic aftershocks *The Cluetrain Manifesto* Rick Levine,2009 Ten years after Cluetrain s original publication too many companies still ignore the idea that markets are really made up of people In our rapidly changing world this book s message is more vital than ever Companies may be wired for business but they still struggle with how to talk to their customers like human beings The 10th Anniversary Edition features extensive new commentaries by industry leaders but the core message of this modern business classic remains intact The Onlife Manifesto Luciano Floridi,2014-11-16 What is the impact of information and communication technologies ICTs on the human condition In order to address this question in 2012 the European Commission organized a research project entitled The Onlife Initiative concept reengineering for rethinking societal concerns in the digital transition This volume collects the work of the Onlife Initiative It explores how the development and widespread use of ICTs have a radical impact on the human condition ICTs are not mere tools but rather social forces that are increasingly affecting our self conception who we are our mutual interactions how we socialise our conception of reality our metaphysics and our interactions with reality our agency In each case ICTs have a huge ethical legal and political significance yet one with which we have begun to come to terms only recently The impact exercised by ICTs is due to at least four major transformations the blurring of the distinction between reality and virtuality the blurring of the distinction between human machine and nature the reversal from information scarcity to information abundance and the shift from the primacy of stand alone things properties and binary relations to the primacy of interactions processes and networks Such transformations are testing the foundations of our conceptual frameworks Our current conceptual toolbox is no longer fitted to address new ICT related challenges This is not only a problem in itself It is also a risk because the lack of a clear understanding of our present time may easily lead to negative projections about the future The goal of The Manifesto and of the whole book that contextualises is therefore that of contributing to the update of our philosophy It is a constructive goal The book is meant to be a positive contribution to rethinking the philosophy on which policies are built in a hyperconnected world so that we may have a better chance of understanding our ICT related problems and solving them satisfactorily The Manifesto launches an open debate on the impacts of ICTs on public spaces politics and societal expectations toward policymaking in the Digital Agenda for Europe s remit More broadly it helps start a reflection on the way in which a hyperconnected world calls for rethinking the referential frameworks on which policies are built *Das Cluetrain-Manifest* ,2000 *The Capstone Encyclopaedia of Business* Capstone,2013-10-22 The business world has changed beyond all recognition in recent years New skills insights tools technologies and best practice have emerged The Capstone Encyclopaedia of Business brings all of this progress together distilling the facts and essential information into one single volume It represents the most up to date authoritative and accessible guide to the modern business world available providing a gateway to the state of the art in marketing finance strategy leadership people management and beyond The Capstone Encyclopaedia of Business is organized alphabetically into
