The Collected Works Volume 2 Faust I II:

The Complete Works of Christopher Marlowe: Volume 2, Edward II, Doctor Faustus, The First Book of Lucan, Ovid's Elegies, Hero and Leander, Poems Christopher Marlowe, 2008-11-20 A critical old spelling edition of the complete works of Marlowe edited on the principles that Professor Bowers more than any other scholar has established Through a choice of copy texts that stand nearest in direct line to the lost manuscripts the works are presented in as near the original form as can be recovered in respect of spelling punctuation capitalisation and the actual words themselves The edition contains a substantial critical apparatus in the form of textual introduction and notes a historical collation and a list of emendations for each work of both substantives and accidentals *Volume 16, Tome II: Kierkegaard's Literary Figures and Motifs* Katalin Nun, Jon Stewart, 2016-12-05 While Kierkegaard is perhaps known best as a religious thinker and philosopher there is an unmistakable literary element in his writings He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians but at the same time it has made their interpretation more complex Kierkegaard readers are generally aware of his interest in figures such as Faust or the Wandering Jew but they rarely have a full appreciation of the vast extent of his use of characters from different literary periods and traditions The present volume is dedicated to the treatment of the variety of literary figures and motifs used by Kierkegaard The volume is arranged alphabetically by name with Tome II covering figures and motifs from Gulliver to Zerlina

Volume 16, Tome II: Kierkegaard's Literary Figures and Motifs Ms Katalin Nun, Dr Jon Stewart, 2015-01-28 While Kierkegaard is perhaps known best as a religious thinker and philosopher there is an unmistakable literary element in his writings He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians but at the same time it has made their interpretation more complex The present volume is dedicated to the treatment of the variety of literary figures and motifs he used **Faust I & II, Volume 2** Johann Wolfgang von Goethe, 2014-04-06 One of the great classics of European literature Faust is Goethe's most complex and profound work To tell the dramatic and tragic story of one man's pact with the Devil in exchange for knowledge and power Goethe drew from an immense variety of cultural and historical material and a wealth of poetic and theatrical traditions What results is a tour de force illustrating Goethe's own moral and artistic development and a symbolic cautionary tale of Western humanity striving restlessly and ruthlessly for progress Capturing the sense poetic variety and tonal range of the German original in present day English Stuart Atkins's translation presents the formal and rhythmic dexterity of Faust in all its richness and beauty without recourse to archaisms or interpretive elaborations Featuring a new introduction by David Wellbery this Princeton Classics edition of Faust is the definitive English version of a timeless masterpiece **Prometheus**

and Gaia Harrison Fluss,Landon Frim,2022-02-01 Prometheus and Gaia examines the ideological positions of Futurism and Eco Pessimism While these are rarely spoken about in mainstream discourse they do have strong resonances in today s popular politics and culture In light of existential threats posed by climate change disruptive technologies and economic crises many have grown weary of the small fixes offered by mainstream policy makers Radical change thus appears necessary as Futurism and Eco Pessimism emerge as two fundamental challenges to the status quo The Futurist claims that the current dynamism of technology is incompatible with human limitations while the Eco Pessimist sees the climate crisis as symptomatic of a broader human domination over nature What these seemingly opposite currents have in common is a shared rejection of the human frame as grounding politics each seeks to subordinate the human in favor of a wholly alien other either in the form of an anarchic nature or a dynamic technology To transcend this strange coincidence of opposites Prometheus and Gaia makes the positive case for a humanism that is rationalist without being anthropocentric The Collected Works of C. Daisaku Ikeda, 2022-05-01 The Lotus Sutra Shakyamuni Buddha's highest teaching explains that all people regardless of gender, social status, or education can uncover the Buddha nature they inherently possess. Based on this empowering and compassionate sutra, Nichiren Daishonin revealed the supreme practice for the modern world. Now in clear down-to-earth terms, SGI President Ikeda and Soka Gakkai Study Department leaders Katsuji Saito, Takanori Endo, and Haruo Suda explore the profound meaning of the Lotus Sutra's twenty-eight chapters. Basing themselves on Nichiren Daishonin's lectures on the Lotus Sutra, *The Record of the Orally Transmitted Teachings* they explain the concepts that form the foundation of SGI members' Buddhist practice. Through their discussions, the ancient text of the Lotus Sutra comes alive, brimming with profound significance and practical advice for living in today's world. Volume six covers chapters 23-28 of the twenty-eight chapters of the Lotus Sutra.

The Specificity of the Aesthetic, Volume 1 György Lukács, 2023-02-13 How is it possible that works of art exist? How do we become receptive aesthetic subjects? *The Specificity of the Aesthetic* extends these fundamental ontological and phenomenological questions around which Georg Lukács's theory of art was organized. This late work of aesthetics seeks to solve a puzzle that neither philosophy nor socialist politics was able to: the fundamental ethical question of what individuals and humanity as a whole ought to do. Art offers Lukács the already existing means through which the damaged edifice of Marxism might be reconstructed on a durable basis on which to rest the philosophy, politics, and ethics of a non-Soviet style Marxism.

Volume 2 of the Collected Works of Marie-Louise von Franz Marie-Louise von Franz, 2021-11-01 The *Collected Works of Marie-Louise von Franz* is a 28-volume Magnum Opus from one of the leading minds in Jungian Psychology. Volume 1, released on her 106th birthday, is to be followed by 27 more volumes over the next 10 years. Volume 2 turns to the Hero's Journey within fairytales. The Hero's Journey is about the great adventure that leads to a cherished and difficult-to-obtain prize. In these fairytales, the Self is often symbolized as that treasured prize, and the hero's travails symbolize the process of individuation. In its many manifestations, the hero embodies the emerging personality. In the conscious world, the hero is only one part of the personality, the despised part; and through his attachment to the Self in the unconscious, is a symbol of the whole personality. Von Franz's prodigious knowledge of fairytales from around the world demonstrates that the fairytale draws its root moisture from the collective realm. This volume continues where Volume 1 left off, as von Franz describes the fairytale suspended between the divine and the secular worlds, creating a mysterious and pregnant tension that requires extreme power to withstand. The resistance of the great mother against the hero and his humble origins, as well as the hero freeing the anima figure from the clutches of the unconscious, are universal archetypal patterns. The spoils retrieved by the hero symbolize new levels of consciousness wrested from the unconscious.

On Psychological and Visionary Art C. G. Jung, 2025-07-22 The first English translation of Jung's landmark lecture on Nerval's hallucinatory memoir. In 1945, at the end of the Second World War and after a long illness, C. G. Jung delivered a lecture in Zurich on the French Romantic poet Gérard de Nerval. The lecture focused on Nerval's visionary memoir *Aurélia*, which the poet

wrote in an ambivalent attempt to emerge from madness Published here for the first time Jung's lecture is both a cautionary psychological tale and a validation of Nerval's visionary experience as a genuine encounter Nerval explored the irrational with lucidity and exquisite craft He privileged the subjective imagination as a way of fathoming the divine to reconnect with what the Romantics called the life principle During the years of his greatest creativity he suffered from madness and was institutionalized eight times Contrasting an orthodox psychoanalytic interpretation with his own synthetic approach to the unconscious Jung explains why Nerval was unable to make use of his visionary experiences in his own life At the same time Jung emphasizes the validity of Nerval's visions differentiating the psychology of a work of art from the psychology of the artist The lecture suggests how Jung's own experiments with active imagination influenced his reading of Nerval's *Aurélia* as a parallel text to his own *Red Book* With Craig Stephenson's authoritative introduction Richard Sieburth's award winning translation of *Aurélia* and Alfred Kubin's haunting illustrations to the text and featuring Jung's reading marginalia preliminary notes and revisions to a 1942 lecture *On Psychological and Visionary Art* documents the stages of Jung's creative process as he responds to an essential Romantic text
