Robertson,2023-03-01 The COVID 19 pandemic accelerated the digital revolution faster than anyone expected In a few weeks faith communities around the world were thrust into developing fully digital ministries some doing it well and others struggling along the way However this moment of crisis opened the opportunity for all faith communities to reach unprecedented numbers of people and truly become ministries without walls Yet many churches have failed to fully incorporate a digital vision into their long term plan for ministry and have largely reverted to in person programs and services because of a lack of direction on how to build high quality and sustainable digital ministries Building Your Digital Sanctuary is an introductory guide for pastors and communications teams on how to lay the foundation of an impactful and sustainable digital sanctuary alongside your in person ministries Drawing on the wisdom of some of digital ministry experts this practical guide will provide the inspiration and insight churches need to minister in the emerging digital age **Faith and Language Practices in Digital Spaces** Andrey Rosowsky,2017-11-16 This volume shares the results of research conducted within and across the complex nexus of language religion and new technologies It identifies the dynamic and mobile ways religious practice and language interact online to modify confirm transform and consolidate linguistic resources and repertoires It makes a significant contribution to work in the emerging sub discipline of the sociology of language and religion and adds to the growing work on digital religion It also showcases leading and ground breaking researchers working on online and offline examples of the complex relationships evinced by the study of language and religion The chapter authors explore a wide range of religions technologies and languages in order to provide an innovative insight into the overlap between the study of language and religion and language and technology
