Kaizen Mark Graban, Joseph E. Swartz, 2018-06-08 Healthcare Kaizen focuses on the principles and methods of daily continuous improvement or Kaizen for healthcare professionals and organizations Kaizen is a Japanese word that means change for the better as popularized by Masaaki Imai in his 1986 book Kaizen The Key to Japan's Competitive Success and through the books of Norman Bodek both of whom contributed introductory material for this book Winner of a 2013 Shingo Research and Professional Publication Award In 1989 Dr Donald M Berwick founder of the Institute for Healthcare

Improvement and former administrator of the Centers for Medicare Medicaid Services endorsed the principles of Kaizen in the New England Journal of Medicine describing it as the continuous search for opportunities for all processes to get better. This book shows how to make this goal a reality. Healthcare Kaizen shares some of the methods used by numerous hospitals around the world including Franciscan St Francis Health where co author Joe Swartz has led these efforts. Most importantly the book covers the management mindsets and philosophies required to make Kaizen work effectively in a hospital department or as an organization wide program. All of the examples in the book were shared by leading healthcare organizations with over 200 full color pictures and visual illustrations of Kaizen based improvements that were initiated by nurses, physicians, housekeepers, senior executives and other staff members at all levels. Healthcare Kaizen will be helpful for organizations that have embraced weeklong improvement events but now want to follow the lead of ThedaCare, Virginia Mason Medical Center and others who have moved beyond just doing events into a more complete management system based on Lean or the Toyota Production System.

Advances in Manufacturing II Adam Hamrol, Marta Grabowska, Damjan Maletic, Ralf Woll, 2019-04-30. This book covers a wide range of management issues concerning planning, control and continuous improvement. It especially focuses on the management of the enterprise and production processes in the era of globalization, discussing the process of transferring production to developing countries, covering issues in technological culture and reporting on quality control issues and on problems related to continuous process improvement. Modern strategies such as Six Sigma and lean manufacturing are also discussed. Another topic concerns the management of the education sphere and how to develop the latter to prepare employees to the changes brought by the technical development. Based on papers presented at the 6th International Scientific Technical Conference MANUFACTURING 2019 held in Poznan, Poland on May 19-22, 2019, this book bridges issues in quality engineering with concepts of ergonomics and sociology, thus offering a timely practice oriented guide to both the engineers and managers of the future.

A Six Sigma Approach to Sustainability Holly A. Duckworth, Andrea Hoffmeier, 2016-02-22. In an age when most business plans extend only to the next quarterly reporting period, the authors of this book propose an audaciously longer view of future planning. Reaching beyond the modern five or ten year strategic plan, the authors take a cue from Kongo Gumi, a Japanese construction company launched in 578 AD that managed to thrive as a family business for over 1400 years.

Ozuru, Julius Akaba, Patient Rambe, Edem Korku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31. Cape Town, South Africa. 7 Sept 2016 - 8 Sept 2016. Theme: Sustainable economies in the information economy. Purpose: To share the quality academic papers presented at the International Conference on Business and Management Dynamics (ICBMD) held from 7 to 8

September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment

Enterprise Contract Management Anuj Saxena, 2008-02-15 Globalization increased economic and geopolitical uncertainty technological advancements and a rise in the number of regulations and legislations have led to a significant rise in the importance volume and complexity of modern contractual agreements Yet in spite of these profound changes many organizations still manage the contracting process in a fragmented manual and ad hoc manner resulting in poor contract visibility ineffective monitoring and management of contract compliance and inadequate analysis of contract performance The net effect of this has been a heightened interest in re engineering and automation of Enterprise Contract Management
