Gordon,2017 The Life of Sir Isaac Newton David Brewster,2022-06-02 David Brewster's *The Life of Sir Isaac Newton* offers an insightful and meticulously crafted biography that delves into the life and achievements of one of the most influential scientists in history. Through a blend of narrative and analytical prose, Brewster chronicles Newton's groundbreaking discoveries in mathematics, physics, and astronomy while also exploring the personal and social circumstances that shaped his scientific endeavors. Written in the 19th century, Brewster's work not only reflects the Enlightenment's thirst for knowledge but also mirrors the era's ideals of empirical observation and intellectual rigor, positioning Newton not only as a pivotal figure in science but also as a paragon of Enlightenment thought. David Brewster was a noted Scottish scientist, inventor, and writer whose fascination with optics and natural philosophy provided him with a unique perspective on Newton's contributions. Brewster's admiration for Newton is evident throughout the biography as he meticulously documents Newton's methodologies and the tumultuous periods of his life, which likely stemmed from Brewster's own commitment to fostering scientific understanding during a time of rapid advancements. This biography is highly recommended for anyone interested in the intersections of science and literature, as Brewster's eloquent prose not only documents Newton's life but also invites readers to ponder the significance of his work in today's scientific landscape. It serves as both an academic resource and an engaging narrative for general readers who wish to explore the legacy of one of history's great minds.

The Life of Sir Isaac Newton, the Great Philosopher David Brewster,1800 *Life of sir Isaac Newton* [tr. by sir H.C. Elphinstone]. Jean Baptiste Biot,1829 Memoirs of the Life, Writings, and Discoveries of Sir Isaac Newton Sir David Brewster,1860 **The Life of Sir Isaac Newton** Sir David Brewster,2020-09-28 Sir Isaac Newton was born at Woolsthorpe, a hamlet in the parish of Colsterworth in Lincolnshire, about six miles south of Grantham, on the 25th December O. S. 1642, exactly one year after Galileo died, and was baptized at Colsterworth on the 1st January 1642/3. His father, Mr Isaac Newton, died at the early age of thirty-six, a little more than a year after the death of his father Robert Newton, and only a few months after his marriage to Harriet Ayscough, daughter of James Ayscough of Market Overton in Rutlandshire. This lady was accordingly left in a state of pregnancy and appears to have given a premature birth to her only and posthumous child. The helpless infant thus ushered into the world was of such an extremely diminutive size, and seemed of so perishable a frame, that two women, who were sent to Lady Pakenham's at North Witham to bring some medicine to strengthen him, did not expect to find him alive on their return. Providence, however, had otherwise decreed, and that frail tenement, which seemed scarcely able to imprison its immortal mind, was destined to enjoy a vigorous maturity and to survive even the average term of human existence. The estate of Woolsthorpe, in the manor house of which this remarkable birth took place, had been more than a hundred years in the possession of the family who came originally from Newton in Lancashire, but who had, previous to the purchase of Woolsthorpe, settled at Westby in the county of Lincoln. The manor house of which we have given an engraving is situated in a beautiful little valley, remarkable for its copious wells of pure spring water, on the

west side of the river Witham which has its origin in the neighbourhood and commands an agreeable prospect to the east towards Colsterworth The manor of Woolsthorpe was worth only 30l per annum but Mrs Newton possessed another small estate at Sewstern 3 which raised the annual value of their property to about 80l and it is probable that the cultivation of the little farm on which she resided somewhat enlarged the limited income upon which she had to support herself and educate her child
