China and the Writing of English Literary Modernity, 1690-1770 Eun Kyung Min, 2018-04-19 Argues that eighteenth century literature defined itself as English and modern by engaging with debates about Chinese history and culture State Communication and Public Politics in the Dutch Golden Age Arthur der Weduwen, 2024-07-19 State Communication and Public Politics in the Dutch Golden Age describes the political communication practices of the authorities in the early modern Netherlands Der Weduwen provides an in depth study of early modern state communication the manner in which government sought to inform its citizens publicise its laws and engage publicly in quarrels with political opponents These communication strategies including proclamations the use of town criers and the printing and affixing of hundreds of thousands of edicts underpinned the political stability of the seventeenth century Dutch Republic Based on systematic research in thirty two Dutch archives this book demonstrates for the first time how the wealthiest most literate and most politically participatory state of early modern Europe was shaped by the communication of political information It makes a decisive case for the importance of communication to the relationship between rulers and ruled and the extent to which early modern authorities relied on the active consent of their subjects to legitimise their government **Tolerance and Intolerance in the European Reformation** Ole Peter Grell, Robert W. Scribner, Bob Scribner, 2002-06-20 An expert re interpretation of how religious toleration and conflict developed in early modern Europe **Oral and Literate Culture in England, 1500-1700** Adam Fox, 2000-11-09 This book explores the varied vernacular forms and rich oral traditions which were such a part of

popular culture in early modern England It focuses in particular upon dialect speech and proverbial wisdom old wives tales and children s lore historical legends and local customs scurrilous versifying and scandalous rumour mongering Adam Fox argues that while the spoken word provides the most vivid insight into the mental world of the majority in this semi literate society it was by no means untouched by written influences Even at the beginning of the period centuries of reciprocal infusion between complementary media had created a cultural repertoire which had long ceased to be purely oral Thereafter the expansion of literacy together with the proliferation of texts both in manuscript and print saw the rapid acceleration and elaboration of this process By 1700 popular traditions and modes of expression were the product of a fundamentally literate environment to a much greater extent than has yet been appreciated **The Contemporary Review** ,1912
