Ross,Changbin Jiang,2020-03-23 The twelve essays in this volume underscore the similarities between Chinese and American approaches to bilateral diplomacy and between their perceptions of each other s policy making motivations Much of the literature on U S China relations posits that each side was motivated either by ideologically informed interests or by ideological assumptions about its counterpart But as these contributors emphasize newly accessible archives suggest rather that both Beijing and Washington developed a responsive and tactically adaptable foreign policy Each then adjusted this policy in response to changing international circumstances and changing assessments of its counterpart s policies Motivated less by ideology than by pragmatic national security concerns each assumed that the other faced similar considerations Authority, Ascendancy, and Supremacy Gregory O. Hall,2013-11-12 Authority Ascendancy and Supremacy examines the American Chinese and Russian Big 3 competition for power and influence in the Post Cold War Era With the ascension of regional powers such as India Iran Brazil and Turkey the Big 3 dynamic is an evolving one which cannot be ignored because of its effect to not only reshape regional security but also control influence and power in world affairs How does one define a global or regional power in the Post Cold War Era How does the relationships among the Big 3 influence regional actors Gregory O Hall utilizes country data from primary and secondary sources to reveal that since the early 1990s competition for influence and power among the Big 3 has intensified and could result in armed confrontation among the major powers He assesses the state of affairs in each country s economic resource military social demographic and political spheres In addition events data which focuses on international interactions facilitates identifying trends in Big 3 interactions as well as their concerns and affairs with regional players Opinion data drawn from policy makers scholarly interviews and survey research data identifies foreign policy interests among the Big 3 as well non Big 3 foreign policy behaviors With its singular focus on American Chinese and Russian interactions policy interests and behaviors Authority Ascendancy and Supremacy represents a significant contribution for understanding and managing Post Cold War conflicts and promises to be an important book
