Overwhelmed Brigid Schulte,2014-03-11 Can working parents in America or anywhere ever find true leisure time According to the Leisure Studies Department at the University of Iowa true leisure is that place in which we realize our humanity If that s true argues Brigid Schulte then we re doing dangerously little realizing of our humanity In Overwhelmed Schulte a staff writer for The Washington Post asks Are our brains our partners our culture and our bosses making it impossible for us to experience anything but contaminated time

Schulte first asked this question in a 2010 feature for The Washington Post Magazine How did researchers compile this statistic that said we were rolling in leisure over four hours a day Did any of us feel that we actually had downtime Was there anything useful in their research anything we could do A New York Times bestseller Overwhelmed is a map of the stresses that have ripped our leisure to shreds and a look at how to put the pieces back together Schulte speaks to neuroscientists sociologists and hundreds of working parents to tease out the factors contributing to our collective sense of being overwhelmed seeking insights answers and inspiration She investigates progressive offices trying to invent a new kind of workplace she travels across Europe to get a sense of how other countries accommodate working parents she finds younger couples who claim to have figured out an ideal division of chores childcare and meaningful paid work Overwhelmed is the story of what she found out , Theatre Worlds in Motion S.E. Wilmer,H. van Maanen,2024-04-02 Theatre Worlds in Motion aims to clarify the different theatre traditions and practices in Western Europe from a historical and sociological perspective The book grew out of a perceived need among theatre scholars who had recognised that while they understood the theatre system of their own country they often found it difficult to discover how it compared with other countries The chapters analyse the basic components and dynamics of theatre systems in seventeen Western European nations in order to elucidate how the systems function in general and how they vary in different cultures The book provides a sense of what has been happening recently in particular countries and indicates how the theatre systems have developed over time and have led to the current practices and structures Each national chapter considers the historical tradition and place of theatre within the country and analyses the role of the state in fostering theatre during the last fifty years Material from the national chapters has been used in two general chapters at the beginning and end of the book to provide an overview to developments in all Western Europe The introductory chapter on decentralisation discusses the tendency amongst governments to encourage cultural development outside the national capital by providing subsidy for regional theatre venues and theatre companies and in many cases by developing the decision making and budgetary powers for the theatre to regional and local authorities The epilogue on the functioning of theatre examines the common structures of theatre in society as described in the seventeen national chapters and it proposes areas for future research
