Largely invented by youth, skateboarding has attracted punks, misfits, and dreamers looking for somewhere to belong. The book features skateboards and skaters who open dialogues about race, the gender binary, queerness, the displacement of Native people, and so much more, shining a light on people and places not often represented in traditional skateboard history. *Four Wheels and a Board* is a fresh look at a transformative culture and one hell of a ride.

### **Schools and Informal Learning in a Knowledge-Based World** Javier Calvo de Mora, Kerry J. Kennedy, 2019-09-19

This book has two purposes: To open up the debate on the role of informal education in schooling systems and to suggest the kind of school organizational environment that can best facilitate the recognition of informal learning. Successive chapters explore what is often seen as a duality between informal and formal learning. This duality is particularly so because education systems expend so much time and effort in certifying formal knowledge often expressed in school subjects reflecting academic disciplines. Recognizing the contribution informal learning can make to young people's understanding and development does not negate the importance of valued social knowledge that complements it. Students come to school with knowledge learnt from their families, peers, the community, and both traditional and social media. They should not have to unlearn this in order to enter the world of formal learning. Rather, students' different learning worlds should be integrated so that each informs the other. In a knowledge-based society, all learning needs to be valued. Some contributors to this book reflect on how new educational systems could be created in a move away from top-down, authoritarian, and bureaucratic management. Such open systems are seen to be more welcoming in acknowledging the importance of informal learning.

Others provide practical examples of how informal learning is currently recognized. Some attention is also paid to the evaluation of informal learning. A key objective of the work presented here is to stimulate debate about the role of informal learning in knowledge based societies and to stimulate thinking about the kind of reforms needed to create more open and more democratic school learning environments.

*Rezballers and Skate Elders* David Kamper, 2025-06 Ethnographer and American Indian studies scholar David Kamper examines how Indigenous youth and adults are making basketball and skateboarding meaningful to their communities by sustaining the transmission of intergenerational knowledge and combatting intergenerational trauma. Kamper looks at how the events and tournaments built around rezball are similar to powwows in how they bring people together across localized communities and generations and he coins the phrase skate elders for those who use the social nature of skateboarding to build community and mentorships. Through a broad picture of North America Kamper demonstrates how Native peoples have long indigenized cultural practices and material culture to assert Native sovereignty creating joy and hope in the process. In *Rezballers and Skate Elders* Kamper considers how Native expressions of basketball and skateboarding show continuities with the historical transformation of practices that originated outside Indian Country to make them meaningful in Native life.

Discover how the collective action of a grassroots movement in the 1980s established meaningful change building a foundation that has led to greater inclusion and diversity which has inspired women girls and non binary youth worldwide to roll on a skateboard for the first time or rediscover their youthful obsession as an adult and feel inspired to drop once again.
