Small-headed Flycatcher. Seen Yesterday. He Didn't Leave His Name. Pete Dunne,1998 Pete Dunne has been watching birds since he was seven years old But not just watching deeply absorbing every nuance of color markings shape flight and song all the subtle clues that can identify a bird barely glimpsed among the highest branches in fading twilight With the same skill he has been observing and writing about birding and birders for over twenty years using humor sentiment occasional sarcasm and unashamed passion for his chosen profession to explore why birdwatching is so irresistibly compelling to so many people This book brings together thirty two vintage essays that Dunne originally wrote for publications such as American Birds Bird Watcher s Digest Birder s World

Birding Living Bird the New Jersey edition of the Sunday New York Times WildBird and Wild Bird News Encounters with birds rare and common is their shared theme through which Dunne weaves stories of his family and friends reflections on the cycles of nature and portraits of unforgettable birders whose paths have crossed his ranging from Roger Tory Peterson to a life battered friend who finds solace in birding A cliff hanger story of the bird that got away gives this book its title *The Wonder of Birds* Jim Robbins,2017 Examines the ecologically and spiritually invaluable contributions to humans made by our feathered friends from the hummingbird that influenced the Wright brother s airplane design to the song of the chickadee considered to be the most sophisticated language in the animal world Athenaeum and Literary Chronicle ,1864 **The Lost Cavern** H. F. Heard,2016-07-05 Four chilling novellas blend horror and science fiction in this collection of short stories from one of the greatest minds of the twentieth century When a man can t bear the company of others when he runs not just from society but from something evil within himself he ll find refuge only in the dark deep underground in the horrifying void of an uncharted cave In the wilds of Mexico a veteran spelunker hears rumors of a cave that could take him deeper than he s ever gone before The locals whisper old Toltec legends of the devils that inhabit the darkness spirits that have blighted the countryside for miles around but the man doesn t listen He ll find things within that cave that mankind isn t meant to see And even if he manages to get out alive he ll never escape the darkness Drawing on his unique background as an intellectual and expert in the supernatural author H F Heard echoes the pioneering horror of H P Lovecraft and the Victorian science fiction of H G Wells In this weird world the greatest threat to man is man himself The Lost Cavern is one of Heard s best known stories and it remains just as eerie today as when it debuted Along with the other three stories that make up this volume The Cup The Thaw Plan and The Chapel of Ease it confirms Heard s deserved status as one of the early masters of weird fiction **Flying Magazine** ,1969-09 *Bookseller and Print Dealers Weekly* ,1929 *Nature* Sir Norman Lockyer,1915 **Air Power; the Air Forces' Quarterly** ,1953 **"The"** *Athenaeum* ,1895 School Education ,1899 **Story Dramas for Grades 4-6** Gretchen Courtney,Sarah Jossart,1998 The teacher playing the role of a park ranger takes an accident report to find out what students know about that nasty fall taken yesterday by Humpty Dumpty Developing similar strategies for engaging students imaginations these two books encourage students to respond to stories by discussing and analyzing story elements as preparation for writing or acting out scenes In addition to each books step by step directions for staging 30 or more story dramas based on specific popular books both books train teachers to develop dramas for their own favorite literature Grades 4 6 Illustrated Good Year Books Pete Dunne's Essential Field Guide Companion Pete Dunne,2013-01-08 From the award winning birder and author of *Birds of Prey* an authoritative information packed guide to distinguishing North American birds In this book bursting with more information than any field guide could hold the well known author and birder Pete Dunne introduces readers to the Cape May School of Birding It s an approach to identification that gives equal or more weight to a bird s structure and shape and the observer s overall impression often called GISS for General Impression of Size

and Shape than to specific field marks After determining the most likely possibilities by considering such factors as habitat and season the birder uses characteristics such as size shape color behavior flight pattern and vocalizations to identify a bird The book provides an arsenal of additional hints and helpful clues to guide a birder when even after a review of a field guide the identification still hangs in the balance This supplement to field guides shares the knowledge and skills that expert birders bring to identification challenges Birding should be an enjoyable pursuit for beginners and experts alike and Pete Dunne combines a unique playfulness with the work of identification Readers will delight in his nicknames for birds from the Grinning Loon and Clearly the Bathtub Duck to Bronx Petrel and Chicken Garnished with a Slice of Mango and a Dollop of Raspberry Sherbet *The Temple of Death* A. C. Benson, Robert Hugh Benson, 2007 Undeservedly the weird and chilling ghost stories of Arthur Christopher Benson and Robert Hugh Benson have been neglected for far too long As exercises in the art of luring the reader into a state of unease they are as potent as they were when the ink was barely dry on the page

Air War Vietnam Martin W Bowman, 2023-09-30 Showcasing specific aircraft and highlighting significant missions illuminates the skills and emotions of the men who flew the machines Bowman does an excellent job recounting stories about battles in the air and decision making on the ground The VVA Veteran Martin Bowman's revealing narrative of the aerial conflict in South East Asia 1965-1972 which had its beginnings in 1 November 1955 engulfed Vietnam Laos and Cambodia and only ended with the fall of Saigon on 30 April 1975 has resulted from decades of painstaking fact finding as well as detailed correspondence with surviving aircrew incorporating a wealth of first hand accounts some never told before supported by dozens of rare and unusual photographs Together they describe in adrenalin pumping accuracy the furious aerial battles of a long suffering and bitter war in South East Asia and in particular the frontline action in the skies over Vietnam that will keep readers on the edge of their seats They too will find a new and useful perspective on a conflict that cost the Americans 58 022 dead and brought the USA worldwide condemnation for its role in Southeast Asia Nearly 2 500 Americans remained missing This work serves as a tribute to the courageous pilots who flew the F 104 Starfighter in the Widowmakers war and B 52 bomber crews on Arc Light Linebacker II strikes and the eleven days of Christmas which ultimately ended the aerial campaign against North Vietnam And as well strike aircraft such as the USAF F 4 Phantom and the F 105 Thud and the US Navy carrier borne jet and propeller driven strike aircraft and the Americans sworn enemy the North Vietnamese MiG fighters feature large from Rolling Thunder onwards Equally the Hueys and Chinooks and other notable work horses that participated on combat assaults or Ash Trash missions and transports like the C 130 Herky Bird C 123 Provider Caribou and Vietnamese C 47 the Haulers On Call that performed sterling service during the gruelling air campaign are not forgotten either Here at first hand are their stories which also include some of the less publicised American forces like the pilots and crewmen who flew the Bird Dogs and all manner of helicopters as well as the largely forgotten Australian and New Zealand Air Force units and the Anzac Battalions whose valuable contributions are too often overlooked

So too is the cost in human misery death and destruction
