**Bad Glass** Richard E. Gropp, 2012-09-25 One of the most hauntingly original dark fantasy debuts in years perfect for fans of *Lost* and Mark Danielewski s cult classic *House of Leaves* Something has happened in Spokane The military has evacuated the city and locked it down Even so disturbing rumors and images seep out finding their way onto the Internet spreading curiosity skepticism and panic For what they show is or should be impossible strange creatures that cannot exist sudden disappearances that violate the laws of physics human bodies fused with inanimate objects trapped yet still half alive Dean Walker an aspiring photographer sneaks into the quarantined city in search of fame What he finds will change him in unimaginable ways Hooking up with a group of outcasts led by a beautiful young woman named Taylor Dean embarks on a journey into the heart of a mystery whose philosophical implications are as terrifying as its physical manifestations Even as he falls in love with Taylor a woman as damaged and seductive as the city itself his already tenuous hold on reality starts to come loose Or perhaps it is Spokane s grip on the world that is coming undone Now caught up in a web of interlacing secrets and betrayals Dean Taylor and their friends must make their way through this ever shifting maze of a city a city that is actively hunting them down herding them toward a shocking destiny [The Spiritual Power of Nonviolence](#) George W. Wolfe, 2010-09-29 Religion and violence the two concepts seem incompatible given the emphasis in religion on virtue love forgiveness and compassion Yet many scriptures contain martial images and stories of god inspired military conquest *The Spiritual Power of Nonviolence* confronts this theological contradiction arguing that martial images and symbols found in

religious texts are often meant to be interpreted as metaphors for an inner spiritual struggle and should never be used as a justification for war The analysis is undertaken from an interfaith perspective that explains many of the paradoxical concepts found in theories of nonviolence Professor Wolfe also presents a compelling case for the sustainability paradigm and for offering peace education and interreligious dialogue on a global scale He probes the scriptures of the world proving that nonviolence is a shared virtue and that the real enemy we must battle against and ultimately defeat is actually within us An excellent introduction to spiritually based principled nonviolence Professor Wolfe s blend of different wisdom traditions is especially useful Dr Michael Nagler Professor Emeritus University of California at Berkeley George Wolfe has put the blame for proliferating violence in the world where it belongs on the crass interpretation of religion A thought provoking book Arun Gandhi President Gandhi Institute for Nonviolence Truly an enlightening book Judy O Bannon Former First Lady of Indiana

**Genesis 1 as Ancient Cosmology** John H. Walton, 2011-06-30 The ancient Near Eastern mode of thought is not at all intuitive to us moderns but our understanding of ancient perspectives can only approach accuracy when we begin to penetrate ancient texts on their own terms rather than imposing our own world view In this task we are aided by the ever growing corpus of literature that is being recovered and analyzed After an introduction that presents some of the history of comparative studies and how it has been applied to the study of ancient texts in general and cosmology in particular Walton focuses in the first half of this book on the ancient Near Eastern texts that inform our understanding about ancient ways of thinking about cosmology Of primary interest are the texts that can help us discern the parameters of ancient perspectives on cosmic ontology that is how the writers perceived origins Texts from across the ancient Near East are presented including primarily Egyptian Sumerian and Akkadian texts but occasionally also Ugaritic and Hittite as appropriate Walton s intention first of all is to understand the texts but also to demonstrate that a functional ontology pervaded the cognitive environment of the ancient Near East This functional ontology involves more than just the idea that ordering the cosmos was the focus of the cosmological texts He posits that in the ancient world bringing about order and functionality was the very essence of creative activity He also pays close attention to the ancient ideology of temples to show the close connection between temples and the functioning cosmos The second half of the book is devoted to a fresh analysis of Genesis 1 1 2 4 Walton offers studies of significant Hebrew terms and seeks to show that the Israelite texts evidence a functional ontology and a cosmology that is constructed with temple ideology in mind as in the rest of the ancient Near East He contends that Genesis 1 never was an account of material origins but that as in the rest of the ancient world the focus of creation texts was to order the cosmos by initiating functions for the components of the cosmos He further contends that the cosmology of Genesis 1 is founded on the premise that the cosmos should be understood in temple terms All of this is intended to demonstrate that when we read Genesis 1 as the ancient document it is rather than trying to read it in light of our own world view the text comes to life in ways that help recover the energy it had in its original context At the same time it provides a new perspective on Genesis 1 in

relation to what have long been controversial issues Far from being a borrowed text Genesis 1 offers a unique theology even while it speaks from the platform of its contemporaneous cognitive environment *Minding the Heavens* Leila Belkora,2002-12-01 Today we accept that we live on a planet circling the sun that our sun is just one of billions of stars in the galaxy we call the Milky Way and that our galaxy is but one of billions born out of the big bang Yet as recently as the early twentieth century the general public and even astronomers had vague and confused notions about what lay beyo *Hecate's Bounty* Will Greenway,2007-09-20 Imagine you re one half of a cosmically powerful being Wren Kergatha a savant of forces is heir to the incredible powers of the first ones Unfortunately separated from her beta half her abilities provide little more than token defense against demons and avatars To make matters worse the stronger half is bent on devouring her Wren continues her epic quest to regain her memories family and heritage Even with the potent help of the Felspar clan the young savant of forces finds herself and her allies on the run from the minions of a pantheon lord In order to rescue her parents and brother Wren must find the lost city of Cosmodarus and confront the evil goddess of the moon But how can she defeat a creature able to ravage entire worlds Misrecognitions Joshua B.
