The Monographs Ben Cardall, 2024-06-06 The first iteration of The Monographs was comprehensive yet only introductory when thinking about how to do things in the same way that Sherlock Holmes did This time we go even deeper From looking at the practices of neuroscience that we can follow in order to develop our emotional control and the sharpness of our minds Not only useful for when we approach casework but also for how we look at someone in order to figure out what they do for a living Especially interesting because this is very often considered the holy grail within this field This second edition will build upon all of the elements from the first Including even more theory development and practice drills This is so much more than a compendium of riddles and puzzles It is a critical thinking course to use with all aspects of your life and the mysteries you take up along the way Instant memorisation and awareness of the people and things in your surroundings managing the accuracy of your critical thinking in connection to any biases reading the face insights from the animals in someone's life step by step programs for reading shoes tattoos phones skin and even a treatise on criminal profiling elements that you can use in

conjunction with your work and much much more You will see the world in a way that nobody else around you will unless they have a copy of this book No longer will there be the footprints of a gigantic hound but the steps of you building your own capabilities within the world of the consulting detective Concise Textbook of Small Animal Handling C.
